G. W. KÜCHLER,

NOTIFICATION.

UNDER the orders conveyed in Bengal Government endorsement No. 2310, dated 31st August 1907, the following junior scholarships are awarded to successful students on the results of the final B class examination held for the province of Bengal and Eastern Bengal and Assam:—

4 of Rs. 20 of the 1st grade.
4 of „ 15 „ 2nd „
8 of „ 10 „ 3rd „

The period of tenure is two years.

As a student who passes the final "B" class examination goes up for the Sub-overseer examination after one year's study and for the Overseer after two years further study, Government has (in General Department letter No. 4838, dated 20th December 1909) approved of proposals to the effect that the scholarships should hereafter be awarded for one year in the first instance and extended for a further period of two years to scholars passing the Sub-overseer examination at the end of the first year of their study. It has however been found necessary to reduce the number of the scholarships in order that the period of their tenure might be extended without incurring additional expenditure. The number and respective values of the scholarships will henceforth be as shown below:—

3 of Rs. 20 of the 1st grade.
3 of „ 15 „ 2nd „
4 of „ 10 „ 3rd „

The new system will be introduced with effect from the year 1910. The scholarships awarded during 1909 may however, under orders of the Director of Public Instruction, be continued for a third year to those scholars who pass the Sub-overseer Examination in 1910.

JOHN RICHARD CUNNINGHAM,
Assistant Director of Public Instruction, Bengal.

The 14th January 1910.

ORDERS BY THE HON'BLE THE VICE-CHANCELLOR AND THE SYNDICATE OF THE CALCUTTA UNIVERSITY.

THE undermentioned candidates have passed the Supplementary Entrance Examination, held in December, 1909:—

OATH OR AFFIRMATION OF ALLEGIANCE.

The PRESIDENT said:—

"The first item on the list of business is the swearing in of certain Hon'ble Members who were not present at the last meeting of the Council."

The Hon'ble Mr. A. S. Thomson, the Hon'ble Sir Frederick Dumayne and the Hon'ble Rai Sita Nath Ray Bahadur then made an oath or affirmation of allegiance to the Crown.

QUESTIONS AND ANSWERS.

The PRESIDENT said:—

"Gentlemen,—the next item of business is the asking of certain questions of which notice has been given by certain Hon'ble Members. In this connection I wish to explain that it is our intention to make a slight change in the practice that has hitherto prevailed in connection with the asking of questions. In the former Council, it had been the practice for the Hon'ble Member who put a question to read out the question at full length. It has been represented to me that this practice occupies the time of the Council unnecessarily, and for the future it has been decided that it shall not be followed. When, therefore, I call upon any Member to put the question which stands in his name, he will rise in his place and simply say, 'I put question No. *so and so* which stands in my name'. Then the answer will be delivered in the usual manner."

SEPARATION OF JUDICIAL AND EXECUTIVE FUNCTIONS.

The Hon'ble BABU BAIKUNTHA NATH SEN asked:—

Will the Government be pleased to enlighten the public as to the time within which a complete separation of Judicial and Executive functions in connection with the administration of criminal justice is to be effected, and as to the districts in which the system is intended to be first introduced?

The Hon'ble MR. DUKE replied:—

"The matter is still under consideration, and no statement can be made at present."

DISTRICT AND LOCAL BOARDS OF THE TIRHUT DIVISION.

The Hon'ble BABU BRAJA KISHORE PRASAD asked:—

(*a*) Will the Government be pleased to state the respective incomes of the different District and Local Boards of the Tirhut Division?

(*b*) Will the Government be pleased to state, separately in the case of each District and Local Board, what portions of the said incomes are contributed by the Planting Community and what portions by the Indian Community, respectively?

(*c*) Will the Government be pleased to state, separately in the case of each District and Local Board, the respective numbers of the members of the Planting and of the Indian Community on these Boards?

The Hon'ble MR. WHEELER replied:—

(*a*) "The incomes of the several District Boards in the Tirhut Division for the year 1908-09, excluding the opening balance to the credit of each, were as follows:—

	Rs.
Saran	3,13,443
Champaran	1,86,601
Muzaffarpur	4,17,751
Darbhanga	5,92,766

"The similar figures for the Local Boards in the Division are as follows:—

	Rs.
Sewan	9,395
Gopalganj	5,760
Sitamarhi	5,041
Hajipur	3,385
Madhubani	6,000
Samastipur	6,000

"With the exception of the Local Boards in the Muzaffarpur district, which enjoy some independent income under the Cattle Trespass Act in addition to the allotments made to them by the District Board, the funds at the disposal of Local Boards are entirely derived from the latter source.

(*b*) "It is impossible to state from the accounts as kept what portions of the above incomes are contributed by the Planting Community and by the Indian Community, respectively.

(*c*) "The numbers of the Planting and Indian Communities, respectively, on the above District and Local Boards, according to the latest information available, are as follows:—

	Number of members belonging to Planting Community.	Number of Indian members.
District Boards—		
Saran	5	14
Champaran	8	3
Muzaffarpur	7	7
Darbhanga	11	6
Local Boards—		
Sewan	3	4
Gopalganj	2	6
Hajipur	2	6
Sitamarhi	4	4
Madhubani	2	7
Samastipur	5	3"

THE CASE OF BABU GAYA PRASAD SINGH.

The Hon'ble BABU BRAJA KISHORE PRASAD asked:—

(*a*) Has the attention of the Government been drawn to the case of Babu Gaya Prasad Singh, lately a Sub-Deputy Magistrate of Samastipore, in the district of Darbhanga, and to the report thereof as published in the *Amrita Bazar Patrika* of the 7th January, 1910?

(*b*) Will the Government be pleased to state if the allegations contained in the petition of resignation submitted by the said Babu Gaya Prasad Singh to the Chief Secretary to the Government of Bengal, setting forth the circumstances under which he was compelled to resign his post, are correct? If so, considering the seriousness of those allegations, does the Government intend to make an inquiry into the matter and to take any action thereon?

The Hon'ble MR. DUKE replied:—

(*a*) "Yes."

(*b*) "The letter in which the Sub-Deputy Collector submitted his resignation was insubordinate, and his conduct indicated an absence of the due sense of discipline. The Lieutenant-Governor sees no reason to make any inquiry into the matter."

THE CALCUTTA PORT (AMENDMENT) BILL, 1909.

The Hon'ble MR. SLACKE moved that the Bill further to amend the Calcutta Port Act, 1890, be taken into consideration by the Council at the next meeting.

He said:—"I think it would not be inopportune at this stage to inform the Hon'ble Members why this Bill has not been referred to a Select Committee. There is nothing in the Bill that would point to the necessity of any such reference being made. The Bill has been approved by the Port Commissioners, and has met their wishes. The draft admits of no doubt, and the objects sought to be attained will be secured by clause 3 of the Bill, which introduces into the Calcutta Port Act a clause inserted in the Bombay Port Trust Act, 1879, by Bombay Act I of 1899, enabling the Port Commissioners to grant pensions, gratuities or allowances to those of their servants who have been injured in the execution of their duties, or to the heirs of those servants who have lost their lives. I would add that the staff of the Port Commissioners numbers over 8,000, exclusive of some 10,000 coolies whom they employ direct and some of whom are employed through Messrs. Bird & Co.

The Motion was put and agreed to.

THE BENGAL MUNICIPAL (AMENDMENT AND VALIDATION) BILL, 1909.

The Hon'ble MR. WHEELER moved that the Bill to declare the meaning of certain words in clause (*b*) of section 66 of the Bengal Municipal Act, 1884, be referred to a Select Committee consisting of the Hon'ble Mr. Collin, the Hon'ble Mr. Richardson, the Hon'ble Kumar Shivanandan Prasad Singh, the Hon'ble Babu Baikuntha Nath Sen, the Hon'ble Khan Bahadur Maulvi Sarfaraz Husain Khan and the Mover.

The Motion was put and agreed to.

FINANCIAL STATEMENT.

The Hon'ble MR. WHEELER made the following statement as to the procedure to be adopted for the discussion of the Revised Financial Statement.

He said :—

"WITH your permission, Sir, I desire to draw the attention of Hon'ble Members to the procedure which will be adopted in considering the Budget estimates of the province for the year 1910-11. The new rules which will govern the discussion have all been published for general information, but it may be advantageous if their leading features are briefly emphasised.

"As is probably known to the Council, the previous practice was that the Provincial Budget estimates were framed by the Finance Department in consultation with the Accountant-General, and after the receipt of the orders of the Government of India thereon, and after the discussion of the Imperial Budget in the Governor General's Council, the Provincial figures were laid before the local Council, usually at the end of March, and dealt with by it in one day in a general discussion ranging over the whole field of administration. Since 1907, opportunity had been taken of informally consulting some of the non-official Members as regards the entries which found a place in the Budget, but this was not recognised by rule, and the Council, as a whole, did not have an opportunity of offering an opinion upon the estimates until the final discussion of the Budget.

"The reasons for holding this procedure to be defective have formed the subject of much discussion in the published correspondence relative to what is known as the scheme of Council Reform, and it is needless to recapitulate them. It is merely desired to describe the course to be adopted in future, in order that the changes may be fully appreciated. The estimates for 1910-11 have been framed in the first place, as before, by the Finance Department with the advice of the Accountant-General. This has had to be done at an earlier date than previously, and to that extent we have been handicapped by the less complete information regarding the actual progress of receipts and expenditure during 1909-10, which was then available. In estimating the receipts no material change of system has been adopted; we have been guided by the past actual figures, so far as they were available, and by the probabilities of the ensuing year. But as regards expenditure, we have been influenced by new principles. We have first of all provided for the current normal expenditure of the administration, including in this what may be termed the normal instances of increase, such as additions to incremental salaries, the enhancement of such ordinary heads as contingency grants, and so on. New expenditure has been treated in two ways, according as the sums involved were small or large. In making this distinction we have held a scheme the total cost of which was not more than Rs. 5,000 in one year to be a small one, and these schemes have been provided for under the appropriate Budget heads, without special mention. It is obviously impossible for this Council to enter into such minor details as the provision for a few additional

clerks, etc. The larger projects have again been divided into two categories—those which were by their nature obligatory and those the undertaking of which was optional. Under the former head we have taken such expenditure as was necessary to complete a scheme already commenced, and in which it was impossible to call a halt. (Such a case would be that of an unfinished building.) Or, again, such as is being incurred in accordance with orders of the Secretary of State or the Government of India, or is required in order to meet some pressing administrative need. These obligatory schemes have been included in the Budget under their appropriate heads, but the special attention of the Council will hereafter be invited to them. Of the optional schemes, a separate list was first made, and at the earlier stages these were not included in the Budget.

"Deducting from the estimated opening Provincial balance and the revenue for the year, the total expenditure involved by what I have referred to as the normal cost of administration, *plus* new small projects and new obligatory projects, we arrived at a margin which was available for expenditure at that time unallotted, and the preliminary orders of the Government of India were then taken as to the total which could thus be considered available. The Government of India upon the first scrutiny of our estimates, both of receipts and expenditure, communicated to us a provisional figure for unallotted expenditure, with directions as to its distribution between recurring and non-recurring outlay. The importance of the difference between recurring and non-recurring charges as affecting the financial stability of the province is obvious.

"The distribution of this sum available for unallotted expenditure has recently been considered by the Finance Committee of Council to which members were elected at our previous meeting, and their report is about to be submitted to Government. The Local Government will now pass orders upon its recommendations, and will embody the figures in the estimates which will then be resubmitted to the Government of India.

"The Imperial Government, after considering all the latest information available, affecting the actual progress of income and expenditure during 1909-1910 and the prospects for the ensuing year, will embody the Provincial figures in the general Financial Statement for India, which will be discussed in the Governor General's Council in February. We shall learn hereafter the orders of the Government of India passed in the light of that debate and the latest figures available, and we shall then lay our estimates before the whole Council some time in the first half of March.

"The estimates at that stage will be known as the Revised Financial Statement, and they will be accompanied by a memorandum explaining the general financial position. What I wish to make clear is that the Statement will not be introduced and discussed as a whole. It will be introduced under various heads or groups of heads by the various Members in charge of each head or group. The discussion will be taken piece-meal on the particular heads for the moment before the Council. Resolutions relevant to those heads can be moved, provided written notice has been given of them, not less than four days before the date of the meeting, and they comply with the rules. These will then be debated and voted upon.

"Hon'ble Members have already been supplied with a list of these heads of discussion, and the names of the official Members who will introduce each group. The remarks which Hon'ble Members may wish to make should be guided by this grouping, and the official Members who will initiate the discussion under each head would be particularly obliged if, as has been customary in the past, they could be informed beforehand, so far as possible, of any points upon which further information or explanation is desired. It is not easy to reply off-hand to all points which may be raised, and the object of the discussion is to explain to the Council what has been included in the Budget and why.

"As soon as this debate is closed, the Local Government has to communicate to the Government of India its final recommendations regarding

the figures, in the light of the recommendations of the Council and all other information available, and the latter Government incorporates the final Provincial figures which it may decide to accept in the Imperial Budget. As soon as the India Budget is passed in the Governor General's Council, the Provincial estimates, which will then be known as the Budget, will be presented to this Council, and a general discussion will be held regarding them. The Budget will be presented as a whole, and Hon'ble Members will speak upon it as a whole. No resolutions will be moved and no vote will be taken. In fact, the discussion will be analogous to the Budget discussions of previous years, but it is hoped that the previous consideration of the Revised Financial Statement in Council, by clearing the ground and elucidating points regarding which doubt might otherwise have existed, will facilitate the final disposal of the Budget and confine further discussion within narrower limits than have, perhaps, always been adhered to in the past. In this instance, again, if there are particular points which Hon'ble Members desire to criticise, the officers in charge of the different Departments and myself would be glad of prior intimation in order that any information desired may be given.

"The important point which I wish to emphasise is that there will this year be two discussions of the estimates in Council—the first of the Revised Financial Statement, dealing with the estimates separately under different heads and groups of heads; the second of the Budget as a whole. In the course of the first, resolutions may be moved and votes taken, but this will not be permissible on the second occasion."

RESOLUTIONS.

The Hon'ble BABU BAIKUNTHA NATH SEN was to have moved the following Resolution:—

The Council recommend to the Lieutenant-Governor that the system of appointments to the Provincial Service by nomination be abolished, and that the competition test be restored.

The Hon'ble RAI KISHORI LAL GOSWAMI BAHADUR was to have moved the following amendment to the foregoing Resolution:—

The Council recommend to the Lieutenant-Governor that the existing system of recruitment of the members of the Provincial Executive Service and the Subordinate Civil Service be given a further trial for a period of five years, with the modification that, under ordinary circumstances, the degree of Bachelor of Law should be regarded as an essential qualification of the candidates.

The Hon'ble BABU BAIKUNTHA NATH SEN said:—

"I have been informed by my colleague, the Hon'ble Babu Bhupendra Nath Basu, that he has asked for some information regarding the appointment of members of the Executive Branch of the Provincial Service. The information has not yet been received. It is desirable that the Resolution which I intended to move be moved after such information is obtained. And, in the second place, I understand that there is some misconception amongst some of my colleagues as regards the object aimed at. So at present I do not wish to move the first Resolution which stands in my name."

The PRESIDENT said:—

"There is an amendment put down against this Resolution in the name of the Hon'ble Rai Kishori Lal Goswami Bahadur. If the Hon'ble Rai Bahadur is willing to postpone his amendment also, there will be no objection to accepting the proposal of the Hon'ble Babu Baikuntha Nath Sen.

The Hon'ble RAI KISHORI LAL GOSWAMI BAHADUR having assented, the President declared that the consideration of this Resolution and the Amendment would be adjourned to the next meeting of the Council.

The Hon'ble BABU BAIKUNTHA NATH SEN moved the following Resolution :—

The Council recommend to the Lieutenant-Governor that in future the appointment of Honorary Magistrates be for a fixed term of five years, and that the existing Honorary Magistrates of a standing of five years or more be made to retire.

He said :—

"Formerly, Honorary Magistrates were appointed without any time limit. They were made, as it were, life-members of the service. Recently, we find appointments and re-appointments are being made for a term of three years only. I am afraid the Government has gone rather to an extreme. The term, in my humble opinion, ought to be five years, to give them sufficient experience and training in the art of administration. Of course, the matter lies entirely in Your Honour's discretion, and it is only a suggestion which I make.

"The other part of the Resolution is that Honorary Magistrates of long standing, that is, a standing of five years or more, should be made to retire. Those who have got any mufassal experience know that some of the Honorary Magistrates have been serving as such for a term of 20, 25 or 30 years. The reasons which have induced the Government to fix the term now for a period of three years would apply *a fortiori* to the case of these Honorary Magistrates who are now, as it were, a permanent fixture on the administrative machinery. Local influences—I do not wish to quote an individual case, or anything that might have the appearance of an insinuation—but local influences do, to a certain extent, impair the impartiality or the independence of these Honorary Magistrates. The reasons which justify the Government in transferring officers, even of the Covenanted Service, after a certain term of service in a particular district, justify, I submit, the making of the suggestion that these Honorary Magistrates of long standing should be made to retire. Of course, the retirement should not be considered as a disability for re-appointment. They might be appointed again. With these observations, I move this Resolution for the acceptance of the Council, and Your Honour will be pleased to decide the matter as may be deemed proper, because after all this would be a mere recommendation.

The Hon'ble MR. CUMMING replied :—

"Sir, if the Hon'ble Member who has moved this Resolution had made it a point that there should be a reversion to the old system of life-tenure, then it would be arguable; but his present point is that it is a question between a term of three years and a term of five years which, after all, is one of actual convenience and propriety. I should like, if the Hon'ble Members would bear with me for a few minutes, to state very shortly the reason why the term of three years was made. The question came up to this Government as long as twenty years ago. It was then stated that Government considered that, as many Honorary Magistrates looked upon their appointment as simply one of dignity, some measures should be taken to make the appointment terminable. The matter came up again in 1893; and finally, when the Criminal Procedure Code was amended in 1898, this was brought before the Select Committee, and the law was then proposed to be amended. The former section 14 of Act X of 1882 read as follows:—'such Magistrates shall be called Special Magistrates'; and in Select Committee it was proposed that an addition should be made as follows:—'and shall be appointed for such terms as the Local Government may, by general or special order, direct'.

"This proposal of the Select Committee was not discussed at all in Council, and this Government understood that the matter had been accepted. Since then, when the Bill became law—Act V of 1898—it was a question as to what the actual term should be. This Government took advice from all quarters; various terms were suggested, ranging from two to ten years; and finally, after full consideration, the Government of Sir John Woodburn decided that the term should be three years, partly because that was considered a convenient time within which a new Honorary Magistrate might learn his duties and be able to show whether he was fit to retain the dignity or not, and partly on account of the analogy of the term of office under the Local Government institutions, in Municipalities and in District Boards. It was then thought that it would be very invidious that local officers in making recommendations should suggest any definite term, and so that proposal was vetoed. Government thereupon decided that the order should issue that in future all new appointments should be for three years; and therefore, late in 1898, an order of Government was passed to the effect that in future all such appointments should ordinarily be for a term of three years only, and at the end of three years Honorary Magistrates might be re-appointed on the recommendation of Commissioners. That, shortly, is the reason why the term of three years was selected as a convenient term.

"The other point which has been raised by the Hon'ble Member is that the existing Honorary Magistrates of a standing of five years or more should be made to retire. In this connection I may point out that this very matter was raised when the term of office was considered in 1898; that on the advice of the Advocate-General, the Government of Sir John Woodburn decided that it was not possible to make the Honorary Magistrates, who had previously been appointed, subject to the new Act; and that they therefore continued to retain their life-appointments. Then, again, as regards those who have been appointed since 1898, their term of office automatically expires after every three years, subject to re-appointment. Hence both in the case of the former Honorary Magistrates and of the later Honorary Magistrates, I am afraid that the proposal of the Hon'ble Member is not practicable. I should like to state that Government has been considerate and forbearing regarding these re-appointments; and it is not till every reasonable chance has been given to Honorary Magistrates who do not attend regularly or who show signs of incapacity that the Commissioner recommends they should not be re-appointed.

The PRESIDENT—"Does the Hon'ble Mover of the Resolution desire to say anything by way of reply?"

The Hon'ble BABU BAIKUNTHA NATH SEN said:—

"After the explanation given by the Hon'ble Member in charge, and the information furnished that it was after due deliberation that the term of three years was decided upon, I do not think I need say anything more, because it was a conventional period which was found by the Government to be sufficient for the purpose of efficient administration.

"As regards the retirement of the other officers, of course, if their work be watched properly, and if the old members be still found to be sufficiently capable of discharging their duties without in any way prejudicially affecting the efficient administration of criminal justice, I leave it to the Government to consider the question later."

THE PRESIDENT—"Do I understand that the Hon'ble Member does not wish to move the Resolution that stands in his name?"

The Hon'ble BABU BAIKUNTHA NATH SEN—"I did move the Resolution, though I do not wish to press it."

THE PRESIDENT—"The practical effect is that the Resolution is withdrawn, with the consent of the Council.

"This terminates the business for the day."

The Council was then adjourned to the 26th February, 1910, at 11 A. M.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 28th January 1910:—

No. 1 of 1910.

A Bill Further to amend the Indian Penal Code.

XLV of 1860

WHEREAS it is expedient further to amend the Indian Penal Code; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Indian Penal Code Amendment Act, 1910.

Substitution of new section for section 75, Indian Penal Code.

2. For section 75 of the Indian Penal Code the following shall be substituted, namely:—

"75. Whoever, having been convicted,—

(*a*) by a Court in British India, of an offence punishable under Chapter XII or Chapter XVII of this Code with imprisonment of either description for a term of three years or upwards, or

(*b*) by a Court or tribunal in the territories of any Native Prince or State in India acting under the general or special authority of the Governor General in Council or of any Local Government, of an offence which would, if committed in British India, have been punishable under those Chapters of this Code with like imprisonment for the like term,

shall be guilty of any offence punishable under either of those Chapters with like imprisonment for the like term, shall be subject for every such subsequent offence to transportation for life, or to imprisonment of either description for a term which may extend to ten years."

STATEMENT OF OBJECTS AND REASONS.

THE object of the Bill is to amend section 75 of the Indian Penal Code so as to enable Courts in British India to recognise, for the purposes of that section, previous convictions by the various Courts or tribunals in the territories of Native States which exercise their jurisdiction under the general or special authority of the Government of India or of a Local Government. As the law at present stands, a person who, having been convicted by any such Court, is subsequently convicted by a Court in British India, is not liable to the punishment to which he would have been liable if the previous conviction had been obtained in British India.

This state of the law has been found to cause serious practical difficulties, more especially in dealing with habitual offenders, and the amendment proposed in the Bill is designed to remove these difficulties by including convictions by such Court within the scope of the section referred to.

2. STAFF AND ESTABLISHMENT.

Many changes took place in the course of the year.

The staff suffered a severe loss by the death, on the 13th October 1908, of Rai Rambrahma Sanyal Bahadur, C.M.Z.S., the Superintendent of the garden. At a meeting of the Committee of management held on 24th October 1908, the following resolution was placed on record :—

"The Committee wish to place on record their deep regret at the death of Rai Rambrahma Sanyal, Bahadur, Superintendent of the garden. During the long period of 33 years in which he was in charge of the gardens, he displayed the greatest zeal and energy in their interest ; his scientific attainments and his unequalled knowledge of the treatment of wild animals in captivity, in addition to the great knowledge of gardening, enabled him to bring the gardens to their present satisfactory state, and by his death the Zoological Gardens have sustained a most serious loss."

Mr. Bijay Krishna Basu, the Assistant Superintendent of the garden, acted as Superintendent from 13th October 1908, and Babu Somadev Ganguli, as Assistant Superintendent.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

≏, dew; ≡ fog.

No. 550L.R.—The 4th February 1910.—In exercise of the powers conferred by sub-section (*l*) and clauses (*xxii*) and (*xxiv*) of section 264 of the Chota Nagpur Tenancy Act, 1908, the provisions of which have been extended to the district of Manbhum by Notification No. 4010L.R., dated the 16th December 1909, published at page 1854, Part I, of the *Calcutta Gazette* of the 22nd idem, the Lieutenant-Governor is pleased to make the following rules as to the commutation of rent payable by occupancy-raiyats in that district in any of the ways mentioned in sub-section (*l*) of section 61 of that Act:—

Manbhum.

1. An application under section 61 for commutation of rent payable by an occupancy-raiyat must contain the following particulars:—

(i) (*a*) when a record-of-rights has been prepared, the plot numbers, local names, quality, boundaries and area of each of the parcels of land constituting the holding, as entered in the record-of-rights;

(*b*) when a record-of-rights has not been prepared, a statement of the parcels of land constituting the holding, the local name and boundaries of each parcel, the different qualities in each parcel, and the number of plots and the area of each different quality in each parcel.

Illustration to clause (*b*).—Name of tenant ... Birsingh Munda.

			Acres	Decimals.
1st parcel of land; Name—Pundidiri Loyung.	*North*—Sanre Munda *South*—Sanichar Uraon *East*—Bakast Malik *West*—Thepa Munda	5 plots—Winter rice 4 plots—Autumn rice 9 plots—Early rice	3 1 2	13 49 36

Explanation to clause (*b*).—The area must be given in acres and decimals when these are known; otherwise, in the measures locally prevalent.

(ii) the existing rent (including, if they are legally renderable, *rakumats* and *begari*), and the proposed inclusive money-rent;

(iii) the rates of money-rent payable by tenants for land of a similar description and with similar advantages in the vicinity; and

(iv) the names and addresses of the rent-receivers of the holding.

2. (*1*) The officer who inquires into the application shall give notice to the opposite party of the date fixed for the hearing of the application and the date fixed for the local inquiry (if any).

(*2*) A local inquiry shall be held, unless the application refers to an area for which a record-of-rights is under preparation or has recently been prepared, and unless such record-of-rights shows the classification of the land in sufficient detail for the purpose of commutation proceedings.

(*3*) Where no record-of-rights exists, the said officer may require the lands to be measured and classified by competent agency.

(*4*) After making the local inquiry (if any), and taking such evidence as may be tendered by the parties or as may be necessary for the disposal of the application, the said officer may determine the sum to be paid as money-rent.

3. (*1*) When several applications from one village are being inquired into simultaneously, it shall not suffice merely to fix general rates; but the incidence of such rates on each holding must be separately considered, and the rates must be modified, if necessary, according to the particular circumstances of each holding.

(*2*) The rent fixed for each holding must be explained by the officer to both landlord and tenant.

4. When a record-of-rights is being made, any number of tenants, occupying land under the same landlord, whose interest is recorded in the same *khewat* entry in the same village, may, with the consent of the said officer, make a joint application for commutation of produce-rents, or may, with the like consent, be joined as defendants in the same proceedings on a similar application by the landlord:

Provided that, if at any time it appears to the said officer that the question between any two of the parties, one of whom is so joined with others, cannot conveniently be jointly inquired into, he may order a separate inquiry to be held as to that question, or he may pass such order for the joint or separate disposal of the application as he may think fit.

Manbhum.

(2) Such appeal must be preferred within thirty days from the date on which such decision was signed.

3. (1) When the Revenue-officer who determined the application is a Settlement Officer, the appeal shall lie to the Commissioner.

4. The provisions of sections 220 to 223 of the Act shall, as far as they are applicable, apply to appeals referred to in the foregoing rules.

Manbhum.

1. (*1*) Whenever the Deputy Commissioner determines, under section 71 of the Act, to replace in possession of his tenancy or a portion thereof, a tenant who has been ejected therefrom in contravention of section 68, he shall issue a warrant to the Head Bailiff of his Court, directing him to cause possession of the tenancy or portion to be given to the tenant.

(*2*) If the area included in the tenancy or portion thereof has been surveyed in the course of making a Government survey and record-of rights, then the plot numbers of the lands constituting the tenancy or portion shall be entered in the warrant.

7. When possession is given of lands situate in different villages, the procedure prescribed by these rules shall be followed in each such village.

8. The said record shall then be forwarded without delay to the Deputy Commissioner who issued the warrant.

If it is addressed to a number of persons occupying or owning land in the same village, the notice will either be served in the manner prescribed above, or by proclamation and beat of drum, and by posting it, in the presence of not less than two persons who should be residents of the village or at least cultivating raiyats in it, in some conspicuous place in the village and also by fixing it up in the village office, if any, where the rent is usually paid.

9. A field map of every village shall be prepared; it shall show the boundaries of every field separately held, or of such plot of land as the instructions of the Board of Revenue for giving effect to these rules may lay down.

III.—Khanapuri, i.e., *preliminary preparation of the record.*

10. The following are the principal documents to be prepared in the course of a survey and the preparation of a record-of-rights under Chapter XII of the Chota Nagpur Tenancy Act, 1908:—

Village map.	Parchas.	Khatian.
Khasra.	Khewat.	Terij.

These and any other papers prescribed by the Board of Revenue shall be prepared in such manner as the Board may prescribe.

11. The record-of-rights, which shall be published under section 83 of the Chota Nagpur Tenancy Act, 1908, shall be contained in the khewat and khatian, and such other papers as may be specified by general or special order of the Board of Revenue in the case of any local area.

12. (*a*) The khewat shall show the character and extent of the interests of proprietors and tenure-holders, such of their interests as are of a raiyati nature being also recorded in the khatian.

(*b*) The khatian shall show in detail for all the lands in the village, estate by estate, landlord by landlord, tenant by tenant, and occupant by occupant, the lands included in each estate owned by each landlord and occupied by each tenant or occupant, with particulars of rent and area and of the incidents of each tenancy The commuted value of prædial conditions to which the tenant has been found liable, and if any tenant is liable to any prædial conditions other than those to which the general body of tenants are liable, or is not liable to all prædial conditions to which the general body are liable, then the prædial conditions to which such tenant is liable, shall be separately recorded in the khatian.

(*c*) Lands cultivated or otherwise held direct by a proprietor or tenure-holder shall be shown in detail in the khatian, and shall be entered either as landlord's privileged land within the meaning of section 118 (1) (*a*) of the Chota Nagpur Tenancy Act, or as land held by the proprietor or tenure-holder but not privileged land within the meaning of that section.

(*d*) The khatian shall also show the respective rights of all persons privileged to take forest produce from jungle or waste land or to graze cattle on any land within the village.

IV.—Attestation of the Record.

13. (*a*) When the map, khasra, khewat and khatian for a village, or such portions of them as are prepared at khanapuri, have been prepared in the manner prescribed by these rules and by instructions of the Board of Revenue consistent with them, the Revenue officer shall issue a notification, in the form contained in Schedule I, fixing a day, which shall be not less than a week from the date of publication of the notification, on which he will be present at some place to be specified at or near the village for the purpose of attesting and completing the record-of-rights in respect of all particulars specified in the above rules 11 and 12.

(*b*) The notification shall state that on the day so fixed, or on any other day to which the proceedings may be adjourned, the Revenue-officer will record rents and will decide all questions of status and claims to special rights or privileges in any lands and record existing rights of tenants or residents in regard to the jungle and waste lands of the village, and commute and include in the cash rent of the holding the value of prædial conditions in accordance with the rules, and will receive and dispose of applications for the commutation of produce-rent, and deal with objections relating to entries in the record or omissions therefrom; and it shall require all parties interested in the subject-matter of the enquiry to attend at the time and place specified, with their parchas, and with such evidence as they have to offer in connection with the proceedings.

(*c*) Such notification shall be published by proclamation and fixed up in the presence of not less than two persons in some conspicuous place in the village to which it refers.

14. The Revenue-officer may also, if he so deems fit, take such additional measures, under the powers conferred on him by rule 4, as he may deem desirable to procure the attendance, at the place specified in the notification issued under rule 13, of the occupants, under-raiyats, raiyats, tenure-holders, landlords and proprietors or their authorized agents.

15. On the date specified in the notification issued under rule 13, or on any other date to which the proceedings may be adjourned, the entries which have been made in the khewat and in each khatian shall be read out in the presence of such of the interested parties as are in attendance. If the correctness of any entry is questioned, the Revenue officer shall dispose of the objection, after local enquiry or otherwise: provided that, if the correctness of a measurement be objected to, and a fresh measurement be demanded, or if a local enquiry is necessary to decide any objection, the Revenue-officer may require the cost of such remeasurement or local enquiry to be deposited. If it appears from the result of the measurement or local enquiry for which costs have been deposited that the objection was not frivolous or groundless, it shall be open to the Revenue-officer to refund the costs, or any portion of the costs which he may think fit to refund.

16. The Revenue-officer shall enquire into any claim put forward for Mundari-khuntkatti tenancies, and shall also ascertain which of the raiyats are raiyats having khuntkatti rights or settled raiyats or occupancy raiyats, and shall record them as such.

The Revenue-officer shall ascertain what raiyats are non-occupancy raiyats, and to this end he shall be entitled to call upon the landlord or his agent to produce a statement showing the names of raiyats alleged by him to be non-occupancy raiyats. On the production of such statement, he shall explain to those raiyats the provisions of Chapter IV of the Chota Nagpur Tenancy Act, 1908. If after such explanation a raiyat admits that he is a non-occupancy raiyat, and if the attestation officer is satisfied of the correctness of the admission, he shall record the raiyat as a non-occupancy raiyat. If he does not admit himself to be a non-occupancy raiyat, the Revenue-officer shall call on the landlord to prove the allegations made by him in regard to such raiyat.

17. The Revenue-officer shall ascertain and record what lands are korkar and what lands are bhuinhari under the Chota Nagpur Tenures Act, 1869, and what lands are khuntkatti.

18. The Revenue-officer shall summarily ascertain the rent at present payable by the tenant, and record it in the appropriate column of the khatian as the rent payable in respect of land held by the tenant. In recording rents the Revenue-officer shall have regard to the provisions of the Chota Nagpur Tenancy Act, 1908, regarding enhancement of rent, and shall record only such rent as is legally payable.

In order to carry out the instructions of this rule, the Revenue-officer shall, before proceeding to attest the records of the village, hold a preliminary enquiry, at which he shall record briefly the deposition of the landlord or his agent and at least one tenant, and shall make such further enquiry as may be necessary, and shall record a finding upon the rates of rent prevailing in the village for each class of land.

19. In the course of the preliminary enquiry into the rates of rent prevailing in the village, the Revenue-officer shall also ascertain the præedial conditions to which each class of tenants in the village is subject, and shall record a finding showing what præedial conditions, if any, are renderable by the general body of tenants, and their cash value, and shall prepare a statement in the form contained in Schedule VI. The cash value of præedial conditions, as commuted by the Revenue-officer under section 111 of the Chota Nagpur Tenancy Act, 1908, shall be recorded separately from the rent in the khatian and included in the total rent payable by raiyats. In the case of tenure-holders, the commuted value of præedial conditions will be entered in the khewat.

In ascertaining and commuting præedial conditions, the Revenue-officer shall be guided by the provisions of section 111 of the Chota Nagpur Tenancy Act, 1908, special regard being given to the proviso to section 105 (3). Any præedial conditions which are by custom or contract already payable in cash shall still be treated as subject to the proviso to section 105 (3) of the Chota Nagpur Tenancy Act, 1908.

20. Cesses which are authorized by law shall be recorded separately from the rent in the khatian, or, in the case of tenure-holders, in the khewat.

No demand of any other kind shall be recorded in the khatian.

21. The Revenue-officer shall, at the time of attestation, also record, in a form prescribed by the Board, the rights, as specified in section 81 (*n*) of the Chota Nagpur Tenancy Act, 1908, which are enjoyed by any class of persons according to established custom in each plot of jungle in the village, and the conditions under which such customary rights are enjoyed.

22. Where a notification under section 127 (*b*) of the Chota Nagpur Tenancy Act, 1908, has been issued, he shall also prepare a record of the rights and obligations of the village headmen.

23. When the record-of-rights and of existing rents has been prepared and attested in the manner prescribed in rules 13 to 22, and when the record has been arranged and corrected in accordance with the orders which the Revenue-officer has passed, he shall record a proceeding, in which he shall state that attestation of the records and commutation of præedial conditions, if any, have been completed, and shall then cause the draft record-of-rights to be published in the village in the manner provided in rule 25.

24. If applications for the commutation of produce rents are filed before the Revenue-officer at the time of attestation, they may be disposed of either before draft publication or after draft publication, according to convenience. If they are disposed of before draft publication, the settled rents shall be incorporated in the settlement record before it is published in draft.

V.—Publication of the draft record.

25. (*a*) As soon as the record-of-rights has been prepared and attested, a notice in the form contained in Schedule II shall be posted up at the landlord's office in the village, or, in the presence of not less than two persons, in some conspicuous place in the village, stating that the draft of the record will be published in the village on a day to be specified, not less than a week from the date of the posting of such notice, and calling on all persons interested to attend on the date so specified: provided that the draft of the record shall not be published until the proceeding under rule 23 has been recorded.

(*b*) On the date fixed for the publication of the draft records the Revenue-officer shall either proceed to the village himself and read the contents of the records in the presence of the parties who attend, or he shall depute an officer, not below the rank of kanungo, who shall read out the contents of the records in the presence of as many of the parties as attend; and the Revenue-officer, or the officer deputed by him, as the case may be, shall at the same time inform the parties who attend that the draft records will be open for inspection for not less than one month in the office of the Revenue-officer, or in such other convenient place as the Revenue-officer may determine. The Revenue-officer shall receive and consider any objection which may be made to any entry during the period named. Objections shall, as far as practicable, be made in the form contained in Schedule III.

VI.—Disposal of objections under sections 83 and 111 (6).

26. When an objection is made, before the expiry of the period of publication of the draft record prescribed under rule 25, regarding the correctness of any entry, or as to the propriety of any omission, notice of the objection, in the form contained in Schedule IV, shall be served on all persons whose interest may, in the opinion of the Revenue-officer,

be affected thereby, and they shall be called upon to attend at such time and place as the Revenue-officer may fix for the disposal of the objection. If no person attends to contest the objection, and the Revenue officer is satisfied that the notice of objection has been duly served on all persons interested, the objection may be allowed and the records amended accordingly, or the person who made the objection may, if the Revenue-officer thinks fit, be called upon to produce evidence in support of his objection.

All such objections shall be dealt with summarily under such instructions as the Board of Revenue may prescribe.

VII.—Settlement of rents before final publication.

27. When the Revenue-officer settles fair rents in isolated or individual cases, before final publication, under section 85 (3) (*a*) or (*b*), he shall follow *mutatis mutandis* the procedure laid down in rules 32 to 37 below for the settlement of fair rents after final publication, and shall incorporate the settled rents in the record to be finally published under rule 29.

28. When rents are settled, before final publication, for whole villages or for larger areas, the Revenue-officer shall adopt the following procedure:—

(*a*) He shall first serve a notice on the village in which settlement of rents is about to be made. The notice shall be in the form contained in Schedule VII, and shall set forth that on a date named and at a place named the Revenue-officer will settle fair rents in respect of all estates, tenures or holdings and for unsettled lands included in such village. Such notice shall be served at least one week previous to the date fixed for settlement of fair rents. When such notice has been served it shall be held that all persons have been sufficiently warned of the date fixed:

Provided that when in the course of proceedings a Revenue-officer proposes to alter an existing rent, and the parties have not attended in compliance with the general notice, the Revenue-officer shall serve each person interested with a special notice, and the fair rent shall not be settled in the absence of such person until after due service of such special notice has been proved.

(*b*) On the date fixed in the notice under rule 28 (*a*), or any subsequent date to which the proceeding may be adjourned, the Revenue officer shall proceed to settle rents in the manner prescribed in rules 35 (*a*) and 37.

(*c*) The settlement of rent for any number of tenants occupying land under the same landlord, whose interest is recorded in the same khewat entry in the same village, may, upon the application of the parties or at the discretion of the Revenue officer, be disposed of in one proceeding, provided that if at any time it appears to the Revenue officer that the question between any two of the parties, of whom one is so joined with others, cannot conveniently be so jointly tried, he may order a separate trial to be held of that question, or he may pass such order for the joint or separate disposal of the application as he may think fit.

(*d*) When a fair rent has been settled under these rules, it shall be entered in the khatian as the rent payable in respect of the holding from the date prescribed by section 97 of the Chota Nagpur Tenancy Act, 1908.

(*e*) It shall not be necessary for a Revenue officer to draw up a separate decree with regard to the fair rent settled, but the entry made in his decision or in the schedule attached thereto with regard to the fair rent settled shall be held to be a decree.

VIII.—Final publication of the Record-of-rights.

29. When all objections under sections 83 and 111 (6) of the Chota Nagpur Tenancy Act, 1908, have been disposed of as provided for in rule 26, and when the draft records have been corrected in accordance with the orders passed, and when the rents, if any, settled under section 85 (3) (*a*) or (*b*) or under section 61 of the Act have been duly incorporated in the record, the Revenue officer shall finally frame the records and cause them to be published by notifying, in the form contained in Schedule V, that their contents will be read out in the village on a date to be specified, not being less than a week from the date of the publication of such notice, and by reading them out himself or causing them to be read in the village on the date so specified, in the manner prescribed in rule 25, in the presence of the parties or of as many of them as attend. The officer engaged in final publication shall serve a copy of the entries in any record prepared under section 127 upon all persons interested in these entries, in the manner prescribed in rule 3.

30. When the record-of-rights of all villages in any local area has been finally published, the Revenue officer shall submit a report to the Local Government, containing such particulars as may be necessary in order to enable the Local Government to issue a notification under section 84 (2) of the Chota Nagpur Tenancy Act, 1908.

IX.—Distribution of copies of the Record-of-rights to parties interested.

31. (*a*) A copy of the record-of-rights as finally published, or an extract therefrom shall be made over to the landlord concerned, or, where there are more landlords than one, to their common agent or common manager, or, if there be no common agent or common manager, to such person among the landlords as the Revenue officer may think fit. The copy or extract shall bear a certificate, under the Revenue officer's signature and seal, that it is a copy of, or extract from, the record-of-rights as finally published.

(*b*) An extract from the khatian relating to his tenancy shall be given to every tenant, under the seal of the Revenue officer and under the signature of an officer duly authorized by the Revenue officer to give copies.

(*c*) Copies of records, or of extracts from them, supplied to landlords and tenants under this rule shall be given free or on payment according as in the case of each local area the Local Government may direct. When payment is required, the sum recovered shall be adjusted against the expenses incurred on account of survey and settlement.

X.—The settlement of fair rents after final publication.

32. When the landlord or tenant applies for a settlement of a fair rent, he shall be considered as plaintiff and the opposite party as defendant.

33. Notice, in the form contained in Schedule VIII, shall be served on every person interested in the application, together with a copy of the application, or an extract therefrom, or a summary thereof, so far as the application concerns such person.

34. With the consent of the Revenue officer, any number of tenants of the same status, holding land under the same landlord, whose interest is recorded in the same khewat entry in the same village, may make a joint application for the settlement of rents, or may be joined as defendants in the same proceeding on a similar application by the landlord: Provided that, if at any time it appears to the Revenue officer that the question between any two of the parties, of whom one is so joined with others, cannot conveniently be so jointly tried, he may order a separate trial to be held of that question, or he may pass such order for the joint or separate disposal of the application as he may think fit.

35. (*a*) On the date fixed for the settlement of fair rents, or any subsequent date to which the proceedings are adjourned, the Revenue officer shall read aloud, or cause to be read aloud in his presence, the name of each tenant whose rent has to be settled, the area of his tenancy, and the existing rent, and shall then proceed to setttle a fair rent under the provisions of section 85 of the Chota Nagpur Tenancy Act, 1908.

When the record has been read over as provided for above, the Revenue officer shall record all claims to enhancement or reduction of the existing rent, and shall try and decide any issues which may be raised under section 86 of the said Act.

(*b*) Where a landlord or tenant does not attend, after due service of notice has been proved, the procedure may be *ex parte*.

(*c*) Where a landlord or tenant appears, the Revenue officer shall record evidence in the manner prescribed in section 164 of the said Act, and shall settle a fair and equitable rent. In important cases the evidence shall be recorded at length.

(*d*) When a fair rent has been settled under these rules, it shall be entered in the khatian as the rent payable in respect of the holding from the date prescribed by section 97 of the said Act.

36. It shall not be necessary for a Revenue officer to draw up a separate decree with regard to the fair rent settled, but the entry made in his decision or in the schedule attached thereto with regard to the fair rent settled shall be held to be a decree. The Revenue officer shall carefully scrutinize the individual entries in schedules, where rents are settled for a number of tenants in joint proceedings, to ensure that injustice be not caused to individuals by the application of general rules.

37. When in the settlement of fair rents, issues are raised under section 86 of the said Act, they shall be heard and decided before fair rents are settled. Proceedings under the said section 86 shall be dealt with in all respects as suits between the parties. Such suits shall ordinarily be tried separately for each tenancy, unless the Revenue officer, for reasons to be recorded by him, considers that the suits affecting two or more tenancies may conveniently be tried together without prejudice to the parties concerned.

XI.—The trial of suits under sections 87, 111 (8), 130, and 252 of the Act.

38. Proceedings under sections 87, 111 (8), 130 or 252 of the Chota Nagpur Tenancy Act, 1908, shall be dealt with in all respects as suits between the parties. The finally published records shall be corrected in accordance with the orders that may be passed in any such proceedings.

XIV.—Deposit of settlement records with the Deputy Commissioner.

39 The finally published record, as completed under rules 35 and 38, shall be made over to the Deputy Commissioner of the district, and shall bear a certificate, that it is the finally published record, under the Revenue officer's signature and seal.

CHAPTER III.

General scale of fees.

40. For the service of every notice under the Chota Nagpur Tenancy Act, 1908, not being a notice issued by any Revenue or Civil Court (fees for serving which are regulated by the Court-fees Act, 1870), and not being provided for by any other rule made under the Chota Nagpur Tenancy Act, 1908, a process-fee of 8 annas shall be levied if the notice be directed to one or more persons residing in the same village.

Where such notices are directed to several persons resident in different villages, a fee of 8 annas shall be levied for service in each village.

In addition to the above fee, the actual charge which must be incurred, if it is necessary to travel by railway or boat, or to cross ferries, shall be levied from, and paid by, the person at whose instance the process is issued, before issue of the process. If a peon carries more than one process involving charges for railway fare, boat-hire, &c., the sum leviable shall be charged, in equal shares, upon all the processes so carried.

If a peon is detained at the place of service for more than 24 hours at the request of the person at whose instance the process was issued, or of his agent, such person or agent must then and there pay demurrage at the rate of 3 annas a day. Unless the demurrage is paid, the peon must decline to wait. No demurrage shall be charged if the delay was not due to the person requiring the process or to his agent.

Manbhum.

1. The word "process," as used in these rules, means any notice, summons or other process issued under the Chota Nagpur Tenancy Act, 1908, other than a warrant against the person of a judgment-debtor.

2. Every process shall be served personally on the person to whom it is addressed.

3. Notwithstanding anything contained in rule 2,—

(*a*) if the person to whom any process is addressed has an agent empowered to accept service, or placed in charge of the management of his zamindari business in connection with the landed property to which the suit or proceeding, in which the process is issued, relates, service of such process on such agent shall be sufficient; and

(*b*) if the person to whom any process is addressed cannot be found, and has no such agent as is referred to in clause (*a*), service of such process may be made on any adult male member of the family of such person who may be residing with him.

Explanation.—A servant is not a member of the family within the meaning of clause (*b*)

4. Service of a process shall be made by delivering or tendering a copy thereof signed by the officer under whose authority the process is issued, or by some officer appointed by him in this behalf.

5. (*1*) When the serving officer delivers or tenders a copy of a process to any person referred to in rule 2 or rule 3, he—

(*a*) shall require the signature of such person to an acknowledgment of service endorsed on the original process, or, if such person be illiterate, shall take his thumb impression instead of a signature; and

(*b*) shall require the signature of persons identifying the person on whom service was made, and of persons witnessing the delivery or tender of the process, to the said acknowledgment, or, if any of them be illiterate, shall take his thumb-impression instead of a signature.

6. Whenever a process has been served under rule 2 or rule 3, the serving officer—

(*a*) shall endorse or annex, or cause to be endorsed or annexed, on or to the original process, a return stating the time when and the manner in which the process was served and the names and addresses of the persons (if any) who identified the person served and witnessed the delivery or tender of the process, and

(*b*) shall require the signature of such identifiers and witnesses to the said return, or if any such identifier or witness be illiterate, shall take his thumb-impression instead of a signature.

7. In either of the following cases, namely:—

(*a*) if any person on whom a process is served refuses to sign the acknowledgment, or

(*b*) if the serving officer, after using all due and reasonable diligence, cannot find the person to whom a process is addressed, and there is no such agent as is referred to in rule 3 to accept service thereof on behalf of the addressee, and no adult male member of his family on whom service can be made,

the serving officer shall affix a copy of the process on the outer door or some other conspicuous part of the house in which the person to whom the process is addressed ordinarily resides or carries on business or personally works for gain, or of his zamindari cutcherry or bhandar or farm-house (if any), and shall then return the original to the Court or officer by whom it was issued, with a report, endorsed thereon or annexed thereto, stating that he has so affixed the copy, the circumstances under which he did so, and the name and address of the person (if any) by whom the house, cutcherry or bhandar or farm-house was identified and in whose presence the copy was affixed.

8. When a process is returned under rule 7, the Court or officer by whom it was issued shall, if the return under that rule has not been verified by the affidavit of the serving officer, and may, if it has been so verified, examine the serving officer on oath, or cause him to be so examined by another Court, touching his proceedings, and may make such further inquiry in the matter as the Court or officer thinks fit; and shall either declare that the process has been duly served or order such service as it or he thinks fit.

9. (*1*) Where the Court or officer by whom a process was issued for service on any person is satisfied that there is reason to believe that such person is keeping out of the way for the purpose of avoiding service, or that for any other reason the process cannot be served in the ordinary way, the Court or officer shall order the process to be served by affixing a copy thereof in some conspicuous place in the Court or in the office of such officer, as the case may be, and also upon some conspicuous part of the house (if any) in which the said person is known to have last resided or carried on business or personally worked for gain, or in such other manner as the Court thinks fit.

(*2*) Service ordered under sub-rule (*1*) shall be as effectual as if it had been made on the said person personally.

(*3*) Whenever service is ordered under sub-rule (*1*), the Court or officer shall fix such time for the appearance of the said person as the case may require.

10. (*1*) A process may be sent, by the Court or officer by whom it is issued, either by one of its or his officers or by post, to any other Court or officer having jurisdiction under the Chota Nagpur Tenancy Act, 1908, in the place of residence of the person on whom the process is to be served.

(*2*) The Court or officer to whom a process is so sent shall, upon receipt thereof, proceed as if it had been issued by such Court or officer, and shall then return the process to the Court or officer by whom it was issued, together with the record (if any) made under this sub-rule.

11. Notwithstanding anything contained in the foregoing rules, if the person to whom any process is addressed resides at a place in which the Chota Nagpur Tenancy Act, 1908, is not in force, the process shall be deemed to be fully served by properly addressing, pre-paying and posting by registered post a letter containing the process, and to have been served at the time at which the letter would be delivered in the ordinary course of post.

be paid into the Treasury direct by the Managing Committee, and all payments on account of them will also be made by the Committee direct without the intervention of the Municipal office, either from the imprest in the hands of the Medical Officer, or by cheques drawn by the Secretary or President upon the Treasury. WEDNESDAY, FEBRUARY 9, 1910.

NOTICES TO MARINERS.

THE following Notices are published for general information.

T. BUTLER,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 2nd February 1910.*

BRITISH POSSESSIONS.

I.

Caution when approaching British Ports.

No. 46 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1910), are republished—

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that circumstances may arise in which it may be necessary, on account of periodical exercises, manœuvres, or otherwise, to forbid all entrance to the Naval Ports at night, this is to give Notice that on approaching the shores of Great Britain, or any port of the British Empire, if search lights are observed to be in constant operation, the Naval Ports should be approached with great caution, as it may be apprehended that obstructions may exist outside, or that the entrances may be altogether closed.

(2) If an entrance to a port is closed, three *red* vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

In this case vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to at the end of this Notice, search lights are occasionally exhibited for exercise, and this may make navigation difficult when approaching them.

Instructions have been given to avoid directing moveable lights towards vessels under way, but mariners are warned that great caution is necessary when search lights are being exercised.

II.

EXAMINATION SERVICE.

(1) Under certain circumstances it may become necessary to take special measures to examine vessels desiring to enter the ports or localities in the United Kingdom and His Majesty's Possessions abroad, mentioned at the end of this Notice.

(2) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (4) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor.

(3) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the above-mentioned flags or lights, and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun.

(4) By day the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry:—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(5) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions as to entry given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there.

(6) In case of fog, Masters of vessels are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(7) The pilots attached to the ports will be acquainted with the regulations to be followed.

FINAL FORECAST OF THE SUGARCANE CROP OF BENGAL, 1909.

THE following note is published for general information.

F. W. DUKE,
Chief Secy. to the Govt. of Bengal.

The 3rd February 1910.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE SUGARCANE CROP OF BENGAL, 1909.

[On an average of the five years ending 1907-08 the area under sugarcane in the territory to which this forecast relates has represented some 18·1 per cent. of the total area under this crop in British India.]

Character of the season.—This crop is most important in Bihar. There the rainfall was defective in the beginning of the planting season, but subsequent rain improved prospects in some districts. In Orissa and Chota Nagpur the weather conditions were favourable throughout and a good outturn is anticipated. In South-West Bengal the crop suffered from heavy rainfall at the end of August. The

cyclone of the 17th October did damage in parts of the Presidency Division. Some injury was also done by insect pests in Sambalpur.

Area planted.—The area under sugarcane this year is estimated at 351,600 acres against 375,200 acres last year. The normal area under the crop is returned as 426,700 acres. The decrease is due to defective rainfall at the time of planting.

Outturn.—From Appendix I it will be seen that only one district, viz., the Sonthal Parganas, estimates more than a normal crop. Three districts, viz., Balasore, Angul and Ranchi, estimate a normal crop. Nine districts report from 90 to 98 per cent. seven districts from 80 to 84 per cent. crops and seven from 72 to 75 per cent. The estimates for the remaining six districts are as follows:—Birbhum and Jessore (60 per cent.), Midnapore and Darbhanga (68 per cent.), Shahabad (59 per cent.) and Darjeeling (55 per cent.). According to these estimates the outturn of the crop for the Province works out to 80 per cent. of the normal against 62 per cent. estimated last year. Accepting 22 cwts. as the normal rate of cane *gûr* per acre, the gross outturn for the Province amounts to 6,188,200 cwts. against 5,117,700 cwts. last year.

Other sources of gûr.—The total quantity of *gûr* likely to be obtained from the juice of the date palm is estimated at 1,350,365 cwts. and from palmyra palm at 14,766 cwts. The total quantity of *gûr* in the Province from all sources this year is estimated at 7,553,331 cwts.

Offg. Director of Agriculture, Bengal.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⌓, dew; ≡, fog.

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENT.

The 10th February 1910.

No. 27.—In supersession of this Department Notification No. 7, dated the 17th January 1910, Mr. H. H. Green, Superintending Engineer, is placed on special duty and is attached to the office of the Superintending Engineer, Central Circle, from the 9th February 1910 and until further orders.

The 12th February 1910.

No. 30.—Mr. C. S. Saunders, Assistant Engineer, 1st Calcutta Division, is transferred, in the interests of the public service, to the Darjeeling Division.

No. 31 E.—The following notification, issued by the Government of India in the Public Works Department, is republished for information :—

No. 9, dated the 11th February 1910.

RESOLUTION—By the Government of India, Public Works Department.

BY the Resolution of this Department, No. 675—694 E, dated the 24th April 1908, the pay of Civil Engineers, Imperial and Provincial, of the Executive and Assistant classes, was revised, a yearly incremental scale being substituted, with effect from the 8th March 1908, for the graded scale which up to then had been in force; and in paragraph 10 of the Resolution it was stated that orders would issue separately in regard to the pay to be drawn in future by Royal Engineer officers in the Executive and Assistant classes. The Governor-General in Council has decided that a yearly incremental scale of pay shall be introduced for Royal Engineers also, and, with the approval of His Majesty's Secretary of State for India, is now pleased to rule that all officers of the Corps admitted permanently to the department between the 8th of March 1908 and the date of this Resolution shall draw pay, with effect from date of appointment, in accordance with the following scale, and that officers who entered the department before the 8th of March 1908 shall have the option of electing, within a period of six months from the date of these orders, to draw pay in accordance with this scale, the election taking effect from the 8th of March 1908 :—

		Maximum pay.
		Rs.
Assistant Engineer,	1st year of service...	460
Ditto,	2nd ditto	500
Ditto,	3rd ditto	540
Ditto,	4th ditto	580
Ditto,	5th ditto	620
Ditto,	6th ditto	660
Ditto,	7th ditto	700
Ditto,	8th ditto	750
Executive Engineer,	9th ditto	800
Ditto,	10th ditto	850
Ditto,	11th ditto	900
Ditto,	12th ditto	950
Ditto,	13th ditto	1,000
Ditto,	14th ditto	1,050
Ditto,	15th ditto	1,100
Ditto,	16th ditto	1,150
Ditto,	17th ditto	1,200
Ditto,	18th ditto and following years ...	1,250

2. For the purpose of calculating the pay to which an officer is entitled under this scale, the first year of service will be reckoned to commence two and-a-half years from the date of first commission. But the rate of pay so arrived at will not give an officer any claim to change the position he at present occupies in the seniority list of Executive and Assistant Engineers on which he is borne; nor is an officer whose position on first appointment was especially fixed, or whose promotion has been retarded in the past entitled by reason of length of service to claim a higher rate of pay under the new scale than that admitted to the Royal Engineer officer immediately above him on the seniority list. If the officer immediately above him is a Civil Engineer, the Royal Engineer may draw on the proposed new scale the pay for length of service corresponding to the pay drawn by the Civil Engineer on his own scale.

3. Officers who elect for the new scale, but are actually in receipt of salary and exchange compensation allowance which exceeds their pay under that scale, may continue to draw the difference as a personal allowance until such time as it is absorbed in the increments on the time-scale, after which pay will be regulated wholly by that scale. And, as in the case of Civil Engineers, officers who were promoted to Executive Engineer, 1st grade, on or before the 8th March 1908, may continue to draw exchange compensation allowance in addition to the new scale of pay.

4. The orders in the resolution of the 24th April 1908, in so far as they apply to Civil Engineers of the Imperial Service, will also apply to Royal Engineers, except in regard to the scale of pay to be drawn. Further, the pay above which an officer will not be eligible to rise, unless he holds a divisional charge or a charge which, in the opinion of the Local Government or Administration, is of equal importance, will be Rs. 900 a month instead of Rs. 800, the limit fixed for Civil Engineers of the Imperial Service.

5. Orders as to the pay to be allowed to Royal Engineers who enter the department subsequent to the date of this resolution will be issued later.

The Governments of Madras, Bombay, Bengal, the United Provinces of Agra and Oudh, the Punjab, Burma and Eastern Bengal and Assam, Public Works Department.
The Hon'ble the Chief Commissioner of the Central Provinces.
The Chief Commissioner of Coorg.
The Hon'ble the Resident at Hyderabad.
The Hon'ble the Agents to the Governor-General for Central India, Rajputana and Baluchistan.
The Hon'ble the Agent to the Governor-General and Chief Commissioner, North-West Frontier Province.

ORDERED also that this resolution be communicated to the Home, Finance, Revenue and Agriculture, Railway and Army Departments of the Government of India.

No. 32E.—Mr. C. F. H. Grose, Registrar, Bengal Public Works Department Secretariat, is granted, under Article 260 of the Civil Service Regulations, privilege leave for one month, with effect from the 16th February 1910, or such subsequent date as he may avail himself of it.

BRITISH POSSESSIONS.

I.

Caution when approaching British Ports.

No. 46 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1910), are republished—

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that circumstances may arise in which it may be necessary, on account of periodical exercises, manœuvres, or otherwise, to forbid all entrance to the Naval Ports at night, this is to give Notice that on approaching the shores of Great Britain, or any port of the British Empire, if search lights are observed to be in constant operation, the Naval Ports should be approached with great caution, as it may be apprehended that obstructions may exist outside, or that the entrances may be altogether closed.

(2) If an entrance to a port is closed, three *red* vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

In this case vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to at the end of this Notice, search lights are occasionally exhibited for exercise, and this may make navigation difficult when approaching them.

Instructions have been given to avoid directing moveable lights towards vessels under way, but mariners are warned that great caution is necessary when search lights are being exercised.

II.

EXAMINATION SERVICE.

(1) Under certain circumstances it may become necessary to take special measures to examine vessels desiring to enter the ports or localities in the United Kingdom and His Majesty's Possessions abroad, mentioned at the end of this Notice.

(2) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (4) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor.

(3) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the above-mentioned flags or lights, and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun.

(4) By day the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry:—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(5) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions as to entry given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there.

(6) In case of fog, Masters of vessels are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(7) The pilots attached to the ports will be acquainted with the regulations to be followed.

THIRD AND FINAL FORECAST OF THE WINTER RICE CROP OF BENGAL FOR 1909-10.

THE following note is published for general information.

F. W. DUKE,
Chief Secy. to the Govt. of Bengal.

The 14th February 1910.

DEPARTMENT OF AGRICULTURE, BENGAL.

THIRD AND FINAL FORECAST OF THE WINTER RICE CROP OF BENGAL FOR 1909-10.

[On an average of five years ending 1907-08 the area under winter rice in the territory to which the forecast relates represents about 27·7 per cent. of the total area under winter rice in British India.]

Character of the season.—The season has been very favourable this year for the province as a whole. Antemonsoon showers were seasonable for preparation of seedbeds and ploughing of lands. The monsoon rains were sufficient

for transplantation and for the growth of the crop. The *hathiya* rain in September-October was sufficient. Some damage was experienced in the end of August from excessive rain and floods in a few districts of Lower Bengal and also in parts of Purnea and Balasore, and the cyclone in October caused some loss in the Presidency Division. The rainfall in December at the time of harvest did little damage. Insect pests injured the crop in parts of Burdwan, Sambalpur and Ranchi.

Area cultivated.—The total area sown with the crop is estimated to be 21,232,900 acres against 17,909,500 acres last year. The normal area under the crop is 20,690,500 acres. The increase in the area is due to the favourable season.

Outturn.—In Burdwan, Bankura, Nadia, Khulna, Saran, Darbhanga, Purnea, the Sonthal Parganas and Puri the estimates made in the second forecast were somewhat below the crop actually harvested, and these districts have now reported higher outturns than those given in the second forecast. In Midnapore, Hooghly, Howrah, Shahabad, Muzaffarpur, Monghyr, Balasore, Sambalpur and Hazaribagh a lower outturn has been obtained, and in the remaining districts the estimates shown in the second forecast have been reproduced. From Appendix I, which summarises the district returns, it will appear that the following districts have the highest estimate:—

	Per cent.
Sonthal Parganas	113
Patna, Muzaffarpur and Manbhum, each	110
Monghyr	107
Bhagalpur and Ranchi, each ...	105

The 24-Parganas, Gaya, Darbhanga and Sambalpur report 100 per cent. Ten districts report crops between 90 and 98 per cent., six districts between 82 and 87 per cent., and five districts between 73 and 78 per cent. Jessore alone anticipates a low outturn, viz., 68 per cent.

The total outturn of the crop for the Province, according to District Officers' returns, works out to 95 per cent. of the normal. But, considering the favourable season that prevailed this year, it is estimated that the outturn of the crop will be not less than 10 per cent. above the normal.

Accepting 110 as the provincial outturn, the gross yield of the cleaned winter rice crop for the Province is estimated at 257,394,700 cwts. against 142,106,400 cwts. last year.

W. R. GOURLAY,

Offg. Director of Agriculture, Bengal.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR JANUARY 1910.

Character of the season.—Rain was general all over the Province, excepting Patna, Bhagalpur and the Sonthal Parganas. The fall was above the normal in most districts of South-West Bengal and Orissa and also in Ranchi and Singhbhum. In Bihar it was much below the normal. The usual rainfall statement is appended.

II. *Progress of agricultural operations.*—Harvesting and threshing of winter rice continued. Towards the end of the month it was almost completed in most districts. Pressing of sugarcane was in progress. Harvesting of early oilseeds and pulses began in some districts.

III. *State of standing crops.*—The standing *rabi* crops are doing well. The crops were benefited by the rain received early in the month. The standing crops were somewhat damaged by excessive rainfall in Khulna.

IV. *Prospects and probable outturn of harvests.*—The outturn of winter rice has been very good. It is estimated that the outturn of the crop has been not less than 10 per cent. above the normal. Prospects of the *rabi* harvest are favourable so far.

V. *Damage to crops.*—The standing crops were damaged to some extent by heavy rain in Khulna. Insects did some injury to *rabi* crops in parts of Monghyr.

VI. *Condition of agricultural stock.*—The condition of cattle has been fair. Cases of cattle-disease were, however, reported from Midnapore, Nadia, Angul, Puri, Sambalpur, Hazaribagh, Palamau, Manbhum and from the Patna, Tirhut and Bhagalpur Divisions, excepting Saran and Darjeeling.

VII. *Failure of pasturage and fodder.*—The supply of fodder and water was sufficient throughout the Province.

VIII. *Prices of food-grains.*—During the second fortnight of the month under report the price of rice fell in eleven districts and went up in eleven. Prices of staple foods are lower than in the corresponding period of last year.

IX. *Condition of agricultural people.*—Agriculturists are in good condition. The outturn of autumn and winter crops has been good. Prospects of *rabi* crops are hopeful.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

The sale will be by public auction, and the property will be put up for sale in the lots specified in the schedule. The sale will be of the property of the judgement-debtors above named as mentioned in the schedule below; and the liabilities and claims attaching to the said property, so far as they have been ascertained, are those specified in the schedule against each lot.

In the absence of any order of postponment, the sale will be held by the Certificate Officer of Bankura at the monthly sale commencing at 12 o'clock on the 21st March 1910, corresponding to 7th Chaitra 1316 B.S., at Bankura. In the event, however, of the debt above specified and of the costs of the sale being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid, either personally or by duly authorized agent. No bid by, or on behalf of, the judgement-creditors above mentioned, however, will be accepted, nor will any sale to them be valid without the express permission of the Court previously given. The following are the further—

Conditions of sale.

1. The particulars specified in the schedule below have been stated to the best of the information of the Court, but the Court will not be answerable for any error, misstatement or omission in this proclamation.

2. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid, or as to the bidder, the lot shall at once be again put up to auction.

3. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided that it shall be in the discretion of the Court or officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.

4. For reasons recorded, it shall be in the discretion of the officer conducting the sale to adjourn it subject always to the provisions of rule 69 of order XXI.

5. In the case of moveable property, the price of each lot shall be paid at the time of sale or as soon after as the officer holding the sale directs, and in default of payment, the property shall forthwith be again put up and resold.

6. In the case of immoveable property, the person declared to be the purchaser shall pay immediately after such declaration a deposit of 25 per cent. on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and resold.

7. The full amount of the purchase-money shall be paid by the purchaser before the Court closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.

8 In default of payment of the balance of purchase-money within the period allowed, the property shall be resold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, may, if the Court thinks fit, be forfeited to Government, and the defaulting purchaser shall forfeit all claim to the property or to any part of the sum for which it may be subsequently sold.

BRITISH POSSESSIONS.

I.

Caution when approaching British Ports.

No. 46 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1910), are republished—

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that circumstances may arise in which it may be necessary, on account of periodical exercises, manœuvres, or otherwise, to forbid all entrance to the Naval Ports at night, this is to give Notice that on approaching the shores of Great Britain, or any port of the British Empire, if search lights are observed to be in constant operation, the Naval Ports should be approached with great caution, as it may be apprehended that obstructions may exist outside, or that the entrances may be altogether closed.

(2) If an entrance to a port is closed, three *red* vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

In this case vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to at the end of this Notice, search lights are occasionally exhibited for exercise, and this may make navigation difficult when approaching them.

Instructions have been given to avoid directing moveable lights towards vessels under way, but mariners are warned that great caution is necessary when search lights are being exercised.

II.

EXAMINATION SERVICE.

(1) Under certain circumstances it may become necessary to take special measures to examine vessels desiring to enter the ports or localities in the United Kingdom and His Majesty's Possessions abroad, mentioned at the end of this Notice.

(2) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (4) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor.

(3) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the above-mentioned flags or lights, and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun.

(4) By day the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(5) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions as to entry given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there.

(6) In case of fog, Masters of vessels are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(7) The pilots attached to the ports will be acquainted with the regulations to be followed.

RESOLUTION REVIEWING THE REPORTS ON THE ADMINISTRATION OF THE CALCUTTA MUNICIPALITY FOR THE YEARS 1906-07, 1907-08 AND 1908-09.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Calcutta, the 21st February 1910.

RESOLUTION—No. 391M.

READ—

The report of the Chairman of the Calcutta Corporation on the administration of the Municipality for the year 1908-09, together with the reviews of the report recorded by the Corporation and the General Committee.

Read again—

The reports on the administration of the Calcutta Corporation for the years 1905-06, 1906-07, and 1907-08, together with Government Resolution No. 385M., dated the 22nd February 1907, recorded on the report of the year first mentioned.

The present report was received by Government on the 9th September 1909, but the reviews of it by the General Committee and Corporation were not submitted until the 5th November 1909, and the 15th January 1910, respectively. This dual scrutiny of the report, although required by section 17(3) of the Calcutta Municipal Act, 1899, certainly results in delay, and the procedure might advantageously be simplified.

2. When considering the report of the municipal administration for the year 1905-06, Sir Andrew Fraser took the opportunity of reviewing briefly the results achieved in the three years then ended, which constituted the second triennium during which work had been carried on under the provisions of the Act of 1899, and the operations of the third triennium, ending with the year 1908-09, may conveniently be similarly dealt with. It would have been a matter for congratulation if this period had been marked by the initiation of the Calcutta Improvement Trust, but that hope has unfortunately not been

realised. The discussions regarding the details of that scheme have been unusually prolonged and complicated, as was inevitable in view of the numerous interests involved, but a Bill providing for the constitution of the Trust is at present under the consideration of the Government of India.

3. The earlier years of the working of the new Corporation were characterised by an extensive overhauling and reorganisation of all the important Departments under it, but that process now seems, for the time being, practically to have been completed. During the last three years the procedure of the Suit Department was revised, and the policy of decentralisation was forwarded, and a saving of expenditure effected, by the transfer of the control of the water districts and the Building Department to the District Engineers. The opinion expressed by the General Committee that further powers should be delegated to the District Committees is noticeable. The codification of the rules of procedure in different Departments has been partly carried through, and the manuals should prove of great utility. The improvements of the administrative machinery effected since 1905-06 have consisted mainly in the issue of new and amended bye-laws regulating many points, amongst which the most important were the preparation of electoral rolls, the rules of business at meetings, the qualifications required of officers of the Engineering and Health Departments, the management of squares, shops and theatres, the inspection of water-fittings and the work of plumbers. Important rules governing building operations, the connection of private drains, and the management of markets and slaughter-houses at present form the subject of discussion between Government and the Corporation. The compilation of a consolidated hand-book dealing with all such regulations has been undertaken, and its early issue is eminently desirable.

4. The results of the third general election held under the Act of 1899 were disappointing. In spite of the amendment of the rules in order to facilitate the registration of voters (whose number, in comparison with the figures at the time of the previous election in 1906, rose from 9,958, having 20,572 votes, to 28,202, exercising 70,201 votes), only 11 per cent. of the electorate actually recorded their votes, and in only 8 out of 25 wards were the elections contested. In these wards the percentage of votes recorded to the total list fell from 62 in 1906 to 45. The Lieutenant-Governor does not accept the opinion that this apathy is due entirely to defects alleged against the existing Act.

5. For the due appreciation of the true position of the Corporation, a satisfactory exhibition of the accounts is the first essential, and the year 1908-09 was marked by changes of great importance in this respect. With effect from the current year, Government decided to perform, free of charge, the audit of the Municipal accounts which had previously been entrusted to a private firm, at the same time extending the audit to the accounts of the debenture interest paid by the Bank of Bengal on behalf of the Corporation. Secondly, the Corporation, after various earlier objections, finally adopted a change, which had long been urged upon it, and substituted accounts upon a basis of income and expenditure for the previous system of a statement of receipts and payments only. The importance of the change of system in compiling the accounts is clearly shown by the following figures :—

	On basis of receipts and payments.	On basis of income and expenditure.
	Rs.	Rs.
Balance on the 31st March 1908 ...	+3,52,426	—3,15,449
Ditto ditto 1909 ...	+5,89,917	—81,438

It has given the Lieutenant-Governor great satisfaction to read the remarks of the Auditors (Messrs. Lovelock and Lewes) comparing the accounts, as now kept, with the books maintained when they first undertook their examination, and noting a history of steady and continuous improvement which enables the comment now to be passed upon the work of the Accounts Department that it is "thoroughly good." His Honour does not share the apprehension entertained by the Corporation that the substitution of audit by a Government Department may impair this record of progress.

6. In reviewing the operations of the Corporation during the year 1905-06, exception was taken to three other matters connected with the accounts, in only one of which can it be said that a satisfactory change appears to have been effected since. In the first place, it was objected that the Corporation was in the habit of unduly relieving the revenue head at the expense of the

capital account. A separate communication has been addressed to the Corporation in this connection, and it is merely now noted that during 1908-09 no less than Rs. 1,12,281 was charged to the General Loan Fund and Rs. 1,10,546 to the Water-supply Loan Fund, on account of the items noted in the margin. The Lieutenant-Governor is of opinion that the practice is absolutely unsound, and he has decided not to permit the misapplication of loan funds in this manner in future. Secondly, it was noticed that the proper principles to be followed in the preparation of a balance sheet and the valuation of the block still remained in a state of undesirable uncertainty. The Auditors, however, again remark that, until the block and capital account is completely overhauled and the question of depreciation and appreciation scientifically handled, the true surplus of the assets of the Corporation over its liabilities cannot be exactly ascertained. The Lieutenant-Governor would press for an early decision of this important matter. Thirdly, the procedure of the Corporation in the matter of the maintenance of stock accounts was adversely criticised. This matter seems to have been attended to in 1907-08, and though something still remains to be done, the Auditors report that the methods of dealing with the receipt and issue of stores are steadily improving.

7. Otherwise in connection with the accounts, the Auditors suggest a different method from that now followed in arriving at the profits on the sale of surplus lands to be credited to revenue, which should receive the consideration of the Corporation, and they challenge the propriety of certain debits to the Lighting Loan Fund, regarding which legal opinion apparently remains to be taken. The Vice Chairman to the Corporation has suggested the division of the revenue budget estimates under recurring and non-recurring heads, but the small proportion of the entries under the latter to those under the former scarcely appears to render action on these lines necessary.

8. Turning to the actual figures under the revenue account, the opening balance of the Corporation, which was Rs. 8,58,456 on the 1st April 1906, had been reduced to a closing balance of Rs. 5,89,917 on the 31st March 1909, and the progress of receipts and payments during the triennium recently ended and that preceding it is exhibited below, all non-recurring items having been excluded :—

Year.	In thousands of Rupees. Receipts.	Payments.
	Rs.	Rs.
1903-04	61,51	64,62
1904-05	64,33	63,56

Annual average	64,54	64,56
1906-07	70,69	70,65
1907-08	73,66	73,25
1908-09	76,82	73,97
Annual average	73,39	72,62

Comparing the results of the year under report with those of 1905-06, the recurring receipts of the Corporation have increased by Rs. 8,04,000 or 11·8 per cent., and the recurring expenditure by Rs. 8,35,000 or 12·7 per cent., but there is still a satisfactory margin of receipts over payments. On the figures for the ten years ending 1908-09 it is stated that the average annual rate of increase under the main items of recurring income and expenditure was Rs. 2,65,000 and Rs. 2,61,000, respectively, indicating a regular expansion on a practically equal scale. For the recurring additions to its revenue the Corporation has to look mainly to the consolidated rate, receipts from licenses and the sale of water, the average annual rate of increase under these heads during the last three years being (in thousands of rupees) Rs. 1,98, Rs. 30, and Rs 29, respectively. Ordinarily too the income from markets shows a regular annual increase, although this was checked during the year under report pending the execution of improvements. On the expenditure side, the following heads have shown a steady rise each year, namely, loan charges, expenses of pumping (mainly due to the higher price of coal) and working of the *gowkhanas* (mainly due to increase in the cost of fodder). It is gratifying to learn that the heavy additions to establishment charges (*plus* one lakh and *plus* Rs. 60,000 respectively), which formed a feature of the reports for the

first two years of the triennium, received a check during 1908-09 when a net decrease of Rs. 1,493 was shown. A Committee, which examined the question in 1907-08, recommended reductions to the total of Rs. 41,000 per annum, and full effect was given to the changes which were approved by the Corporation before the close of the year under report. A serious item in the non-recurring expenditure incurred is that on account of grain compensation allowance, which appeared in the accounts for the first time in 1906-07, and was responsible for the outlay of Rs. 2,12,890 in 1908-09. On the whole, however, the financial results of the year's working were satisfactory.

9. During the three years ending with 1908-09, a total sum of Rs 59,00,000 was borrowed by the Corporation, as compared with the sum of Rs. 99 lakhs during the preceding triennium, and on the 31st March 1909, the total loan liability amounted to Rs. 4,26,02,500 in comparison with Rs. 3,86,47,890 on the 31st March 1906. The net indebtedness of the Corporation (viz., the sum owed less the sums at credit in sinking funds and reserve) has increased by about Rs. 26 lakhs during the same period, as against an increase of Rs. 60 lakhs during the previous three years. The average price at which the loans of 1908-09 were floated (Rs. 95-11) was the lowest experienced during the triennium under review. The process of heavy borrowing which was characteristic of the three years ending with 1905-06 slackened, therefore, perceptibly, and the Government consolidated loan which necessitated an annual payment of Rs. 4,64,000, was finally paid off during the year under report.

1907-08	...	26,18,600
1908-09	...	20,00,000

10. The borrowing capacity of the Corporation is restricted under section 131, Act III of 1899, by the provision that the sum payable annually for interest and for the maintenance of the sinking funds, shall not exceed 10 per cent. on the annual value of buildings and lands. Legal opinion is at present being taken whether such annual value is that of all buildings and lands, or only of those which can be assessed to rates. The latter view is the safer of the two. The valuation of the taxable property in the city on the 31st March 1909 being Rs. 3,06,65,969, a borrowing capacity of Rs. 30,66,596 is arrived at, deducting from which the annual loan charges of Rs. 22,33,894 already incurred, a balance of Rs. 8,32,702 remains, which is sufficient to defray the cost of loans aggregating Rs. 1,66,54,040. But the statutory limit of borrowing power is governed in practice by the estimated available surplus of receipts over payments, and this surplus on the 31st March 1909 (after deduction of the working balance required to be maintained by law, and the value of the stores and the unrealised cost of work done for private individuals), was only Rs. 8,08,672, which would permit of Rs. 1,61,73,440 being borrowed. During the current year (1909-10) permission to float loans aggregating 60 lakhs has already been accorded, involving an annual liability of three lakhs, while in the next two years (1910-11—1911-12) further loans amounting to Rs. 47,72,274, entailing a yearly charge of Rs. 2,38,613, will be required to complete works which are already in progress. On the other hand loans which at present cost the Corporation Rs. 2,39,500 per annum will be repaid within the same period. If from the sum of Rs. 8,32,702 referred to above, Rs. 2,99.113 * be thus considered as already ear-marked, a balance of Rs. 5,33,589 remains, which would suffice to float further loans of Rs. 1,06,71,780 independently of any growth in the assessable value of property in the town, which may confidently be counted upon. The average annual rate of increase in the rateable valuation of Calcutta during the three years ending with 1908-09 was Rs. 10,71,114. It is clear, therefore, that the Corporation has still a good margin of borrowing power in hand.

* Rs. (3,00,000 + 2,38,613 — 2,39,500 =) 2,99,113.

11. The transactions of the Corporation in respect of land are now of no small amount, and during the triennium under review land to the total value of Rs. 11,28,963 and Rs. 7,10,921 was acquired and sold respectively. An important legal opinion was given to the effect that it was permissible in connection with a project to purchase surplus lands out of capital for subsequent sale in partial recoupment of the cost of the scheme, and the value of such proceedings is shown by the fact that the entire expenditure in connection with the road improvements in the vicinity of the Corporation office was thereby recovered, and a clear profit actually shown. The compilation of

complete registers showing the land transactions of the Corporation should be of permanent utility, and better maps will now be at the disposal of the Corporation. The survey of the added area was completed in 1906-07, and improved arrangements have been made for the record of subsequent changes and the preparation of maps. The question of a periodical revision of all maps still, however, remains to be settled.

12. The work of the Collection and License Departments of the Corporation has been uniformly commended during the three years under review, and the percentage of collections achieved is highly creditable to all concerned. In respect of the Law Department the appointment of a special Solicitor to the Corporation appears to have been attended with useful results, but in the prompt realisation of demands the need of closer supervision is reported.

13. It is, however, in respect of the works actually carried out by it in the town that the administration of the Corporation is of greatest interest to the outside public, and the directions in which the largest outlay is incurred are those of *bustee* improvement, water-supply, drainage, roads and street lighting. The progress made in each of these respects is referred to briefly below.

14. *Bustee improvement.*—Action under the present Act towards the systematic improvement of *bustees* was first taken in 1903 04, since when 7½ miles of roads have been opened out, of which 5 miles have been sewered, and 251 bighas of *bustee* have been removed. The total expenditure up to the close of 1908-09 was Rs. 2,34,000. The rate of progress was well maintained during the three years under review, but now that the more important cases have been disposed of it is likely to slacken, and future action will be mainly directed towards ensuring that the alignment of growing areas (especially to the east of Circular Road) is adhered to, in order to prevent a recurrence of the state of affairs which, once it is reached, necessitates the adoption of expensive and difficult measures as a remedy.

15. *Water-supply.*—In the review of the report for the year 1905-06, an account was given of the various suggestions which had been considered from time to time for increasing the water-supply of the city, and which, after various proposals had been examined and discarded, had resulted in the decision to construct an elevated reservoir. The scheme, which was then only in rough outline, has since been elaborated, and the sanction of Government to it was given in March 1908. At first sight this record may appear but a poor achievement after three years' labour, but the Lieutenant-Governor is satisfied that time has not been wasted. The difficulties involved were very great, and it was essential to obtain and weigh the best technical opinion available. All this took time, but the Corporation may now be congratulated on having embarked upon a project which affords every hope of success. To give effect to the whole scheme it will be necessary to enlarge the works at Palta (other than the settling area), to strengthen the pumping plant at Talla, to construct an elevated reservoir of considerable dimensions, and to lay a huge steel main from Talla to Wellington Square. The total cost is estimated at Rs. 69 lakhs, inclusive of establishment, and the plant employed for the scarcely less important matter of the prevention of waste. Up to the close of 1908-09, three filters had been constructed out of five which will be required, the pumping plant was in course of delivery, and the site of the reservoir had been acquired and cleared and the foundations commenced. The first rivet of the actual structure was fixed by His Honour the Lieutenant-Governor on the 18th November 1909, and it is hoped that the whole work will be completed by July 1911. The services rendered in this connection by the Chief Engineer, Mr. MacCabe, have been of great value.

The construction of the elevated reservoir will render possible the maintenance of a pressure of 40 feet throughout the 24 hours within the area of previous intermittent supply. All other arrangements for this change were completed within the town proper by the 31st March 1907, and within the added area by the 31st March 1909, in so far as concerns the laying of trunk mains and the improvement of the pumping machinery, but the substitution of supply by gravitation and the check of waste are essential if the

full pressure is to be given. The population to which the constant supply is now available is estimated at 847,430 and the average daily consumption of water during the year was 26,149,000, gallons, which is equal to a supply of 30·8 gallons per head. In measures for the prevention of waste, the Corporation may well expect the public to co-operate. In respect of the unfiltered supply, continuous action was taken to improve the pumping machinery at Mullick's Ghât, with the result that a higher pressure is now secured.

16. *Drainage.*—In connection with the scheme for the drainage of the suburban area, the only portion of importance remaining to be done at the close of 1905-06 was the construction of the syphon under Tolly's Nullah, without which it was impossible to utilise fully the sewers in Alipore and Kidderpore. After lengthy discussions and negotiations the work was actually commenced in October 1908 and completed in May 1909, the cost being estimated at Rs. 2,24,805. All that now remains to be done is to link up the system of sewers on both banks with the syphon, and it is hoped that this may be speedily accomplished. It is a most satisfactory feature of the triennium, that this large and important project, the total cost of which has amounted to Rs. 68,00,000, has at length been practically completed.

As regards other projects, the drainage of Baliaghata was completed during 1907, and a useful diversion of the drainage from the *maidan* into Tolly's Nulla was finished during 1908-09. A scheme for discharging the drainage of Garden Reach into the Hooghly was also commenced during the latter year. But the most important drainage work which is now in progress is that for the construction of sewers in the Fringe Area and for the general improvement of the locality, which has been given priority over the construction of surface drains in the suburban area to which reference was made as pending in the review of the report for the year 1905-06. The sanction of Government was accorded to the scheme in Government Order No. 1212T.—M., dated the 26th September 1907, at a total estimated cost of Rs. 29,48,000. Since then, however, further developments have been decided upon, and approval has recently been communicated to an additional estimate of Rs. 15,03,709. Work was commenced in November 1908, and good progress is reported in the building of the sewers. Four miles of road will eventually be made at an estimated cost of Rs. 3,72,000, and a belt between the Circular Road and the Canal will thus be opened up, and will be available for the accommodation of the population which will be dislodged, should operations be undertaken hereafter to remedy the congestion in the northern parts of the city. The whole work is thus one of peculiar importance, and towards its cost it is hoped that a profit of about Rs. 5 lakhs will be available from the sale of surplus lands. Liberal assistance has also been given by Government, which has undertaken to meet one-third of the annual charges for the service of the loans required for the scheme up to a limit of Rs. 50,000 in any one year.

17. *Roads and street lighting.*—It is reported that, including repairs to foot-paths and other incidental charges, the total annual cost of keeping the roads in Calcutta in a really efficient state is Rs. 6,60,000 Since the expenditure of the last three years has only averaged Rs. 4,47,634 per annum, in comparison with an average of Rs. 4,39,711 during the preceding triennium, there is obviously a considerable discrepancy between the work actually done and that which is desirable, and the Lieutenant-Governor is glad to observe that the Budget provision under this head for 1909-10 is Rs. 5,40,605. The yearly expenditure* on the flagging of foot-paths shows a tendency to decline, though that† on the work of kerbing and channelling is more constant. The steady progress made with the alignment of existing roads and the projecting of new streets is satisfactory. The number of incandescent gas lamps which was 8,863 in 1905-06, had risen to 9,600 in 1908-09, but the most important work of the Corporation in this connection was the consideration of the revised agreement to be entered into with the Oriental Gas Company on the expiry of the present contract in 1911. After protracted discussions and negotiations the approval of Government to a new agreement was given in Government order No. 1843M., dated the 26th November 1909, under which it

is hoped that the Corporation has secured materially better terms than previously in respect both of the efficiency and economy of the service.

18. *Conservancy.*—A continuous conservancy service is now maintained in the central wards, and a double service elsewhere, this improvement having been rendered possible by additions effected during the triennium to the equipment of the different *gowkhanas*, and to the thorough revision of the arrangements in District IV on lines similar to those which had been previously adopted in the other three districts of the town. The construction of a new refuse platform in Lower Circular Road at a cost of Rs. 1,59,396 was a noticeable improvement, but on the other hand the failure of the Entally incinerator to work satisfactorily necessitated its closure. If arrangements can be made, as are said to be under consideration, to remove the municipal railway from Lower Circular Road entirely, a great advance will be accomplished in the conservancy of the town which it would give the Lieutenant-Governor great satisfaction to see.

19. *Miscellaneous improvements.*—It is impossible to mention any large proportion of the miscellaneous improvements effected by the Corporation during the triennium. They constitute a record of commendable activity, and among the more important were the extension and improvement of public cemeteries at Bagmari, Tiljalla and Gobra; the payment of a contribution of Rs. 27,000, after some discussion, towards the Parsi Tower of Silence; the decision to remove the *dhobikhana* from Circular Road, and the construction of a slaughter-house for Hindu use in Chitpore Road. Continuous action was also taken towards the improvement of public parks and squares. The largest project, however, which was completed since 1905-06, was the extension of the Sir Stuart Hogg market at an estimated cost of Rs. 11,53,388, a practical return for which should be obtained in an increase of revenue. It was also decided to construct a market in the north of the city, while the contemplated experiment of erecting a model municipal cow-shed will be watched with great interest, and should afford most valuable experience of the possibility of coping with the important question of the improvement of the milk supply of the town.

20. The period of three years is too short to permit of statistical demonstration that efficient municipal administration has succeeded in improving the public health, but the leading features of the triennium in this respect may be briefly referred to. The figures for the three years are given below as compared with the average of the period 1903-05 :—

Year.	Births per mille.*	Deaths per mille.*
1903-05 (average)	17·2	35·0
1906	17·7	35·7
1907	19 1	37·6
1908	20·1	32·6

* Calculated on the Census population, 1901.

The improvement in the registration of births is satisfactory, and may presumably be attributed in part to the system of employing peripatetic registrars which was extended throughout the town in 1906. It is not, however, yet possible to accept the figures as complete. As regards mortality, the triennium was made up of one year which was fairly normal, one which was specially unhealthy, and one which showed a death-rate appreciably lower than usual. Small-pox prevailed extensively in 1906, to a less extent in 1907, and very moderately in 1908, but in December 1908 a sudden rise in the mortality occurred and in the three months January—March 1909 no fewer than 2,789 deaths occurred. The accommodation available at the Campbell Hospital (which has since been greatly improved) was found to be inadequate, and a temporary hospital was erected at Tiljalla, the epidemic finally disappearing in 1909. Vaccination, the popularity of which varies directly with the incidence of the disease, was energetically pushed, and the average yearly number of primary vaccinations rose from 18,176 during 1903-05 to 24,601 during the triennium under report. Proposals to amend the Vaccination Act in Calcutta and the Suburban Municipalities are at present, at the instance of the Corporation, under the consideration of Government. In respect of outbreaks of cholera the triennium was a most unfortunate one. The

deaths from this cause rose from 2,504 in 1906 to 3,803 in 1907 (the highest rate recorded for 20 years), and were only slightly less (3,694) in 1908. The historical *resumé* by the Health Officer (Dr. Pearse) tracing such outbreaks since 1891 to various festivals which attracted numerous pilgrims to the town is of much interest. The drinking of river water on these occasions is doubtless responsible for such outbreaks, and that of 1908 followed directly on the Ardhodaya Joge and in spite of the expenditure of over Rs. 25,000 on sanitary precautions on that occasion. The annual mortality from plague during the triennium ending with 1905 was 6,761. In the three succeeding years the figures were 2,606, 3,591 and 1,779 respectively, the severity of the disease thus having noticeably diminished. In fact, the death-rate in 1908 was the lowest recorded since 1899. Considerable discussion took place regarding the proposal to amalgamate the Health and Plague Departments, but the question is still unsettled. The mortality from malaria showed a progressive decline, and as usual the comparative statistics for the town, suburbs and fringe area point clearly to the value of drainage as a preventive measure. In comparison with that of the previous triennium (1,746) the average annual mortality from phthisis (2,181) increased, but the figures for the last four years have not varied greatly The Lieutenant-Governor is glad to observe that since the close of the year 1908-09 the Corporation has made a substantial addition to its contributions to the different medical institutions in the town.

21. The Corporation was fortunate in the continuity of the tenure of the higher executive posts during the three years under report, and with short absences on leave. the offices of Chairman, Deputy Chairman and Vice-Chairman were held throughout this period by Sir Charles Allen, Mr. Payne and Babu Nilambara Mukharji, respectively. The Lieutenant-Governor has no doubt of the advantage which the administration derived from this fact, and it is to the efficient supervision of these officers aided by the willing and zealous co-operation of the Commissioners, that the successful results of the triennium may be attributed. The demands upon the time and energy of the members of the Corporation in controlling the multifarious operations of that body are considerable, and their public spirit is deserving of full recognition. His Honour is of opinion that the record of three years' work is a highly creditable one, and a review of the reports of past years leads to the indubitable conclusion that a great advance has been made, and is being continuously made, in the standard of municipal administration in Calcutta, upon which the Corporation may well be congratulated, and for which cordial thanks are due to all members of that body.

By order of the Lieutenant-Governor of Bengal,

H. WHEELER,

Secretary to the Government of Bengal.

REPORT ON THE STATE OF THE SALT MARKET FOR THE THIRD QUARTER OF THE YEAR 1909-10.

No. 822B., dated Calcutta, the 11th February 1910.

From—SRIGOPAL BHATTACHARJI, Esq., M.A., B.L., Secretary to the Board of Revenue, L. P., Misc. Revenue Dept.,

To—The Secretary to the Government of Bengal, Financial Department.

I AM directed to submit the following report on the state of the salt market for the third quarter of the year 1909-10, comprising the months of October, November and December 1909.

Member in charge:

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

2. The quantity of salt of every description cleared during the quarter amounted to 2,698,108 maunds, as compared with 2,555,838 maunds in the previous quarter, and 2,660,570 maunds in the corresponding quarter of the previous year. The net amount of duty levied thereon was Rs. 24,26,247 as against Rs. 23,70,837 in the previous quarter, and Rs. 24,05,311 in the corresponding quarter of the previous year.

3. The subjoined Table I shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter, as compared with the figures of the corresponding quarters of the two previous years :—

Compared with the corresponding quarter of the previous year and the same quarter of 1907-08, importations were less by 29·50 per cent. and 20·99 per cent., respectively, but clearances were greater by 1·26 and 1·27 per cent. As compared with the corresponding period of the previous year, the increased imports from Port Said and Bombay and the decreased imports from the United Kingdom, Salif and Aden are specially noticeable. It will be seen from the above table, that in spite of the strong competition of Spanish, Salif and Aden salt, the importations and clearances of the United Kingdom salt continue to be more than twice as great as those of any other country.

4. Table II shows the quantity of sea-imported salt remaining in the warehouses at the close of the quarter, as compared with the preceding four quarters:—

5. The figures showing the despatches of salt from Calcutta by different routes during the quarter under report will be published as usual in the *Calcutta Gazette* by the Director-General of Commercial Intelligence when they are available.

6. The quantity of salt despatched during the quarter by the East Indian Railway to stations beyond Buxar amounted to 3,534 maunds, as against 1,326 maunds in the previous quarter and 1,325 maunds in the corresponding quarter of the previous year.

7. The quantity of saltpetre salt excised in the refineries of Bengal during the quarter amounted to 1,584 maunds,* as compared with 4,444 maunds in the previous quarter, and 2,773 maunds in the corresponding quarter of the previous year.

* Includes 101 maunds of *sitta*.

8. The shipments of Liverpool salt during the quarter for the port of Calcutta according to the published market reports amounted to 37,000 tons. It is reported that the vessels noted in the margin are on the sea bound for Calcutta with cargoes of salt from Hamburg and Bremen. The quantity given against each ship is approximate only.

During the quarter the prices of Liverpool *panga* and Aden and Salif crushed rose at first, but fell again towards the close of the quarter. The prices of Spanish *karkuch* rose, while those of Hamburg and Bombay *karkuch* fell. No imports of Madras salt were made into the port of Calcutta during the quarter.

REPORT ON THE COTTON CROP OF BENGAL, FEBRUARY 1910.

THE following note is published for general information.

F. W. DUKE,
Chief Secy. to the Govt. of Bengal.

The 19th February 1910.

DEPARTMENT OF AGRICULTURE, BENGAL.

FOURTH REPORT ON THE COTTON CROPS OF BENGAL, 1909.

[On an average of the five years ending 1907-08, the area under the cotton crop in the territory to which this forecast relates represents about 0·35 per cent. of the total area under cotton in India.]

Explanatory.—This is the final report on the cotton crops of Bengal to be issued during the season 1909-10. It deals with revised estimates of the area and outturn of the crops since the issue of the third report in December.

Character of the season.—For the early crop the season was generally favourable. In the Santhal Parganas, which contains about one-third of the total area under this crop, the prospects were excellent owing to extremely favourable weather conditions. The season was less favourable for the late crop. In the two important districts of Saran and Muzaffarpur the crop suffered from excessive rain in August. The less important districts are Darbhanga and Singhbhum. In these two districts as well as in other minor districts the crop is reported to be in good condition.

Area sown.—The area sown with the early variety is estimated at 34,045 acres against 31,230 acres last year, and that sown with the late variety is shown as 33,083 acres against 32,869 acres estimated last year.

Outturn.—The estimated outturn of early cotton amounts to 7,066 bales and that of late cotton to 9,512 bales. Last year's estimates were 4,656 and 9,354 bales, respectively.

Adding to this year's estimates 5 per cent. for the cotton crop grown in the Native States, for which no statistics are recorded, the total early and late crop works out to 7,419 and 9,988 bales, respectively. The total outturn of the cotton crops (both early and late) for the Province as a whole is estimated at 17,407 bales against 14,711 bales last year.

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF NOVEMBER 1909.

During the first two or three days of the month skies were nearly free from cloud over the two Provinces with temperature in slight to moderate excess. Similar conditions prevailed during the week ending 11th November, skies being almost cloudless, while the only precipitation recorded was a light shower at Shillong. Temperature was normal or in slight excess. During the week ending 18th November the weather was less settled, as a depression from the Bay gave rain in the south of Eastern Bengal and Assam, Cox's Bazar on the 15th reporting 6½ inches of rain and Chittagong 4½ inches. Skies were cloudy in the south and east of the division and clear elsewhere Temperature at night was in excess in the area of cloud; but the rainfall caused a large fall of day temperature in the south-eastern districts. During the week ending on 25th November a few light showers occurred in Eastern Bengal and Assam, while the skies were lightly to moderately clouded. Temperature was about normal. During the last few days of the month rainfall was practically nil, while the skies were clear or lightly clouded. Temperature was not far from normal.

In the Bay weather was much less disturbed than during October. There was a tendency towards the existence of low pressure conditions during the greater part of the month in the neighbourhood of the Andamans, and on the 12th a storm was generated there. It travelled along a curved track towards the Bengal coast, which it crossed between Chittagong and Barisal on the evening of the 15th. It does not appear to have been a disturbance of great severity, and at all events reached the land with considerably diminished intensity. On the 29th and 30th a second storm was forming to the south of the Andamans.

Summary of temperature.—Mean temperature was in excess everywhere. The highest temperature recorded was 94° at Buxar and the lowest 47° at Daltonganj.

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Eastern Bengal and Assam and of Bengal for the month of November 1909:—

Summary of rainfall.—The rainfall work of the area under report has been handed over to the Director of Agriculture, Bengal. A short table, however, is attached to this report, giving actual and normal rainfall recorded at the principal stations of each district.

Rainfall was in defect over the whole reporting area, except in the Chittagong Division, where it was in excess.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

≏, dew; Ξ, fog; d, drizzling rain; p, passing temporary showers.

Fishermen desirous of obtaining a rebate of duty on salt used for fish-curing, which shall not exceed the duty payable on salt so used, as sanctioned in Supreme Government order No. 1257-1, dated the 5th February 1908, shall apply to the Collector of the district for the opening of a yard in which to cure their fish. No application for the opening of a yard shall be entertained unless the applicant undertakes to—

(2) erect buildings of the size and kind required by the department,
(3) fence the site to the satisfaction of the Collector, and
(4) pay for the cost of the preventive establishment that may be required for guarding the salt revenue.

4. Working hours at the yards shall be from sunrise to sunset No person except the guarding establishment shall be allowed to remain or enter in the yard except during working hours and on business connected with curing.

5. No person shall take any salt out of the yard; fishermen must use the salt within the yard and take it from the store in quantities not less than a seer.

6. Persons using the yards shall also comply with the instructions given by the officer in charge for the regulation of space and convenience of traffic.

7. The weight of each lot of fish brought to be cured shall be ascertained by striking an average from a sufficient number of baskets or pans full at the discretion of the officer in charge and entered in the register of fish cured when it is first brought to the yard, and again on removal after curing.

8. Loose salt clinging to fish after curing shall be carefully shaken or dusted off before the fish is weighed and removed.

Expenses of removal shall be recovered if not paid by sale of any salt or fish belonging to the owner that may be at the yard

10. Any salt not in immediate use shall be kept in bags ticketted with the name of owner and shall be lodged in the store-room for safe custody out of working hours.

NOTIFICATIONS.

No. 446M.—The 24th February 1910.—In exercise of the power conferred by section 17, sub-section (1), of the Cantonments Act, 1889 (XIII of 1889), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to impose in the Cantonment of Dum-Dum the following tax, namely:—

24-Parganas.

A fee for the registration of carts not exceeding four rupees if the registration has effect for one year, and not exceeding two rupees if the registration has effect for half a year to be paid by the owner of every cart which is kept or is used in the ordinary course of business within the Cantonment, or which is let for hire within or without the Cantonment and is used in the ordinary course of business within it:

Provided that the said fee shall not be levied in respect of—

(*a*) carts which are the property of the Government or of the Cantonment Committee; or

(*b*) carts which are kept without the limits of the Cantonment and are only temporarily and casually used within the limits of the Cantonment.

No. 447M.—The 24th February 1910.—In exercise of the power conferred by section 17, sub-section (2), of the Cantonments Act, 1889 (XIII of 1889), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to direct that the provisions of sections 142 to 147B (inclusive) of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), shall apply to the assessment and recovery of the fee for the registration of carts (imposed in the Cantonment of Dum-Dum by Notification No. of this date) in the following adapted form:—

24-Parganas.

Sections 142 to 147B of the Bengal Municipal Act, 1884, as adapted to the Cantonment of Dum-Dum.

OF THE REGISTRATION OF CARTS.

142. The *Cantonment Committee* may make and publish an order that every cart on which a registration fee is imposed by Notification No. 446M., of this date shall be registered by the *Cantonment Committee* with the name and residence of the owner, and shall bear the number of registration in such manner as the said *Committee* shall direct:

Registration and numbering of carts.

Provided always that such order shall be published at least one month before the beginning of the half-year in which such order for registration shall be enforced.

143. The registration of carts under the last preceding section shall be made, and the numbers assigned yearly or half-yearly, upon such days as the *Cantonment Committee* shall notify; and such fee as they shall from time to time fix and notify, not exceeding four rupees if the registration has effect for one year, and not exceeding two rupees if the registration has effect for half a year, shall be paid for each registration.

Fee for registration.

144. Any person becoming possessed of any cart which has not been registered for the then current period of registration shall register the same within one month from the date on which he may have become possessed thereof, and the *Cantonment Committee* shall grant registration in any such case on payment of such amount of the fee as shall bear the same proportion to the whole fee for the current period of registration as the unexpired portion of the current period of registration bears to the whole of such period; and such fee shall be calculated from the date on which such person may have become possessed as aforesaid.

Proportionate payment of fee.

145. When the ownership of any registered cart is transferred within any period of registration, it shall be registered anew, within one month of the transfer, in the name of the person to whom it has been transferred, and a fee not exceeding four annas shall be paid for every such last mentioned registration.

Transfer of ownership.

146. Whoever keeps, or is in possession of, a cart not duly registered as required by any of the three last preceding sections shall be liable to a fine not exceeding three times the amount payable by him in respect of such registration, exclusive of the amount so payable; and whoever, being the owner or driver of any cart, shall fail to affix thereto the registration number as required by section 142 shall be liable to a fine not exceeding five rupees.

Penalty.

147. If any person owns or keeps any cart hereinbefore required to be registered without having caused the same to be registered, the *Cantonment Committee*, or any person authorised by that Committee in that behalf, may seize and detain such cart (provided the same be not employed at the time of seizure in the conveyance of any passengers or goods), together with the animals drawing the same; and all police-officers are required, on the application of the *Cantonment Committee*, or of any servant of the *Cantonment Committee* duly authorized in that behalf, to assist in the said seizure.

Seizure and sale of unregistered carts.

After such seizure the *Cantonment Committee* shall forthwith issue a notice in writing that after the expiration of ten days they will sell such vehicle and animals by auction at such place as they may state in the notice; and if any registration fee, together with the cost arising from such seizure and custody, remains unpaid for ten days after the issue of such notice, the *Cantonment Committee* may sell the property seized for payment of the said fee and of all expenses occasioned by such non-payment, seizure, custody and sale.

The surplus sale-proceeds (if any) shall be credited to the *Cantonment* fund, and may be paid on demand to any person who establishes his right to the satisfaction of the *Cantonment Committee* or in a Court of competent jurisdiction:

Provided that if, at any time before the sale is concluded, the person whose cart has been seized shall tender to the *Cantonment Committee*, or to the person authorised by them to sell the cart, the amount of all the expenses incurred and the registration fee payable by him, the *Cantonment Committee* shall forthwith release the cart so seized.

Notwithstanding anything contained in this section, the surplus of the sale proceeds of a cart seized under this section may be devoted to the payment of any fine imposed under the last preceding section; and any cart which has been seized under this section may be sold for the realization of any such fine.

147A. Nothing in sections 142 to 147 shall be deemed to authorise the levy of more than one fee for the same period in respect of any cart which is used in the ordinary course of business *both in the Dum-Dum Cantonment and in one or more other Cantonments or in one or more Municipalities.*

Prohibition of double fee.

When carts not kept within the Dum-Dum *Cantonment* are so used in more than one *Cantonment* or municipality, the Local Government, on the application of the *Cantonment Committee*, may, if it thinks fit, apportion between all such *Cantonments* or municipalities and the Dum-Dum *Cantonment* the registration fees paid under the Bengal Municipal Act, 1884, in respect of such carts.

Apportionment of fees.

Where a cart is registered under the said Act in more than one *Cantonment* or municipality, the *Committee* of the *Cantonment* within which the cart is kept shall have a right to levy the registration fee in preference to the *Committee of any other Cantonment* or the Commissioners of any other municipality, as the case may be.

Levy of fee when cart registered in more than one Cantonment or Municipality.

147B. A cart shall be deemed to be used in the ordinary course of business within the meaning of sections 142 and 147A if it is used on an average twice a week.

NOTICE is hereby given that, under rule 64 of order XXI of the Code of Civil Procedure, 1908, an order has been passed by this Court for the sale of the attached property mentioned in the annexed schedule in satisfaction of the claim of the decree-holder in the suit mentioned in the margin, amounting with costs and interest up to date of sale to the sum of Rs. 1,418-15-9.

Certificate case No. 286 of 1909-10 decided by the Certificate Officer of Bankura, in which the Secretary of State for India in Council was plaintiff and Rani Ananda Kumari Debi was defendant.

The sale will be by public auction, and the property will be put up for sale in the lots specified in the schedule. The sale will be of the property of the judgement-debtors above named as mentioned in the schedule below; and the liabilities and claims attaching to the said property, so far as they have been ascertained, are there specified in the schedule against each lot.

In the absence of any order of postponment, the sale will be held by the Certificate Officer of Bankura at the monthly sale commencing at 12 o'clock on the 21st March 1910, corresponding to 7th Chaitra 1316 B.S., at Bankura. In the event, however, of the debt above specified and of the costs of the sale being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid, either personally or by duly authorized agent. The following are the further—

Conditions of sale.

1. The particulars specified in the schedule below have been stated to the best of the information of the Court, but the Court will not be answerable for any error, misstatement or omission in this proclamation.

2. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid, or as to the bidder, the lot shall at once be again put up to auction.

3. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided that it shall be in the discretion of the Court or officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.

4. For reasons recorded, it shall be in the discretion of the officer conducting the sale to adjourn it subject always to the provisions of rule 69 of order XXI.

5. In the case of moveable property, the price of each lot shall be paid at the time of sale or as soon after as the officer holding the sale directs, and in default of payment, the property shall forthwith be again put up and resold.

6. In the case of immoveable property, the person declared to be the purchaser shall pay immediately after such declaration a deposit of 25 per cent. on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and resold.

7. The full amount of the purchase-money shall be paid by the purchaser before the Court closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.

8. In default of payment of the balance of purchase-money within the period allowed, the property shall be resold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, may, if the Court thinks fit, be forfeited to Government, and the defaulting purchaser shall forfeit all claim to the property or to any part of the sum for which it may be subsequently sold.

QUESTIONS AND ANSWERS

FIRE ON THE KHULNA-BARISAL MAIL STEAMER "*AKA*."

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

(*a*) Has the attention of the Government been drawn to the reported serious loss of lives resulting from a fire having broken out in the Khulna-Barisal Mail steamer *Aka* ?

(*b*) Will the Government be pleased to inquire whether the fire originated in a pile of jute on board the steamer ?

(*c*) Is it true that the steamer ran aground before the fire broke out, and that there was no light or other indication to show the existence of *chur* land there ?

(*d*) Will the Government be pleased to make sifting inquiries as to what caused the fire, and the number of lives lost and the number of people injured ?

(*e*) Considering that jute is not allowed to be stored in dwelling-houses, or in godowns over which there are residential quarters, in Calcutta, will the Government be pleased to make rules prohibiting or restricting the conveyance of jute or other inflammable materials in mail or passenger steamers ?

The Hon'ble MR. BUTLER replied :—

(*a*) "The burning of the steamer *Aka* was at once reported to this Government.

(*b*), (*c*) *and* (*d*) "A Court of Inquiry under section 31 of the Inland Steam-vessels Act, 1884, has been appointed to investigate the circumstances attending the outbreak of the fire. The finding of the Court will be communicated to the Hon'ble Member.

(*e*) "The existing rules made under section 50 of the Inland Steam-vessels Act, 1884, for the protection of inland steamers from danger by fire, impose sufficient restrictions on steamers carrying jute or other inflammable materials, and it does not appear necessary to add to them."

THE PATNA COLLEGE.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

Will the Government be pleased to state when the construction of the Laboratory buildings of the Patna College, for which administrative sanction has already been given, will be taken in hand ?

The HON'BLE MR. GOURLAY replied :—

"It has not been found possible to provide funds for the construction of the Laboratory buildings at Patna College during 1910-11. The work will be taken in hand as soon as funds are available, due consideration being given to the other projects in hand."

THE TEMPLE MEDICAL SCHOOL, BANKIPORE.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

Will the Government be pleased to state how matters stand with regard to the construction of a fencing wall with ornamental railings in front of the Temple Medical School, Bankipore ?

The Hon'ble MR. WHEELER replied :—

"Estimates have been prepared, but it has not so far been found possible to allot funds for the work. Government is aware of the desirability of the improvement, and the matter will not be lost sight of."

EDUCATIONAL GRANTS.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

Will the Government be pleased to state what amounts were given to private colleges in Bengal severally during the years 1906-07, 1907-08, 1908-09 and 1909-10—

(*a*) as special grants from Provincial and Imperial revenues separately, and

(*b*) as recurring grants from Provincial revenues ?

and

Will the Government be pleased to enlighten the public as to the amount of grants-in-aid allowed by the Local Government to each of the several colleges of this province during the years 1906-07, 1907-08 and 1908-09 ?

The Hon'ble MR. GOURLAY replied as follows to both these questions :—

The Hon'ble MAHARAJ-KUMAR GOPAL SARAN NARAYAN SINGH asked :—

(*b*) Will the Government be pleased to state how much is spent on the Presidency College in Calcutta, and how much aid per year is given by the State to the different colleges in Bengal ?

The Hon'ble MR. GOURLAY replied :—

(*a*) "During 1908-09 State aid to private colleges in Behar was approximately as follows :—

		Rs.
1.	Behar National College, Bankipore	9,755
2.	Tej Narayan Jubilee College, Bhagalpur ...	4,000

"During the same period the Presidency College cost Government Rs. 1,00,265."

DISTURBANCE IN THE BETTIAH SUB-DIVISION.

The Hon'ble MAULVI SAIYID MUHAMMAD FAKR-UD-DIN asked :—

(*a*) Is the Government aware that about the time of the deplorablet disturbance in the Bettiah sub-division of the Champaran district, the tenants petitioned the Government to have an independent inquiry made regarding their grievances ?

(*b*) Was such an inquiry made by Mr. Gourlay, Director of Agriculture, under the orders of the Government ?

(*c*) Has Mr. Gourlay's report on the subject been received by the Government ? If so, will the Government be pleased to publish the same ?

(*d*) Does the report disclose any permanent grievances of the raiyats ? If so, what action has the Government taken, or does it propose to take, to redress the grievances, and when may the public expect to receive a final pronouncement on the subject ?

The Hon'ble MR. DUKE replied :—

(*a*) *and* (*b*) "The answer is in the affirmative."

(*c*) "Mr. Gourlay's report has been received."

(*c*) *and* (*d*) "The report is under the consideration of this Government, and will be submitted in due course to the Government of India. Pending the receipt of the orders of the Government of India, this Government is unable to discuss the recommendations made in the report or the question of its publication."

DISTRICT AND LOCAL BOARDS IN THE TIRHUT DIVISION.

The Hon'ble BABU BRAJA KISHOR PRASAD asked:—

(*a*) Is the present Government of Bengal aware that in August, 1908, at the Government House, Bankipore, an address was presented to Sir Andrew Fraser, the late Lieutenant-Governor of Bengal, by a deputation of the people of Behar, organised by the Behar Landholders' Association, the Behar Provincial Association, and the Behar Provincial Muslim League?

(*b*) Is the present Government aware that in the said address the attention of the late Lieutenant-Governor was drawn to the following point?—

> "..... that the District Boards in the Tirhut Division have an overwhelming preponderance of the members of the European Planting Community, which materially affects the chances of the Beharees in the Tirhut Division of acquiring training and experience in methods of Local Self-Government ...."

(*c*) Is the present Government of Bengal aware that the late Lieutenant-Governor, in his reply to the said address, stated as follows?—

> "..... you refer to the representation of the European Planting Community on the District Boards in the Tirhut Division ..... I have obtained the figures, and I certainly agree with you that the matter requires consideration ..... It is certainly desirable that the interests with which the work of the District Boards is concerned should be represented on the Boards with some degree of reasonable proportion."

(*d*) Will the Government be pleased to state what action has been taken, since the said reply was given, in the direction indicated by the late Lieutenant-Governor?

The Hon'ble MR. WHEELER replied:—

(*a*), (*b*) and (*c*). The answer is in the affirmative.

(*d*) "Under the amended Local Self-Government Act full authority has been delegated to Commissioners of Divisions to appoint the members of District Boards. The Commissioner of the Tirhut Division (then included in the Patna Division) was addressed on the subject in September 1908. The Lieutenant-Governor has since obtained further figures up to date, and has again communicated with the Commissioner. The Lieutenant-Governor in no way disagrees with the views expressed by Sir Andrew Fraser in 1908 in this matter."

MADARIPUR *BHIL* ROUTE.

The Hon'ble RAI SITA NATH RAY BAHADUR asked:—

(*a*) Will the Government kindly enlighten the public as to what has become of the project submitted by Mr. Stevenson-Moore, while Magistrate of the 24-Parganas, for the opening of a boat canal in continuation of the Madaripur *Bhil* route terminating into the river Hooghly near Budge-Budge?

(*b*) In view of the fact that the present so-called outer route is very unsafe and dangerous to inland steamers and flats, inasmuch as they have to pass through the Sundarbans and cross the mouth of the Bay, which causes a delay of two to three days in the journey to and from the Eastern districts, and the fact that the opening of a direct route between Calcutta and these districts would cause a great saving in both freight and time, will the Government be pleased to consider the advisability of opening such a direct route?

(*c*) If the scheme seems feasible, will the Government be pleased to communicate with the Government of Eastern Bengal for taking joint action in the matter and at joint expense?

The Hon'ble MR. BUTLER replied:—

"I have considered it advisable to reply to all three questions by one answer so as to avoid reiteration.

"Mr. Stevenson-Moore reported in favour of a proposal made by Mr. Lees, Superintending Engineer, that there should be a direct steamer route between Khulna and the Hooghly *viâ* Tolly's Nullah.

"That proposal is now being considered from a financial aspect by this Government in communication with the Government of India.

"The cost will probably exceed one hundred lakhs, and unless the scheme can be regarded as a productive work, it will have to be abandoned.

"In the event of the present inquiries tending to show that the scheme could be a productive work, the financing will have to be carried out by the Imperial Government, and it would be for them to decide whether the Government of Eastern Bengal and Assam should be addressed on the subject."

TOLLY'S NULLAH.

The Hon'ble RAI SITA NATH RAY BAHADUR asked:—

(*a*) Has the attention of the Government been drawn to the silted-up state of the Tolly's Nullah, especially between the boat canal and Goria?

(*b*) Is it a fact that, the above portion having silted up, rice-laden boats cannot approach the great rice mart of Chetla?

(*c*) Has the Government received any representations from traders as to inconvenience resulting to the trade of Chetla from the silting up of the nullah?

(*d*) Is it not a fact that tolls are levied on boats passing along the Tolly's Nullah?

(*e*) Has the amount realised from tolls on Tolly's Nullah been spent on improving the nullah?

(*f*) Will the Government be pleased to take prompt steps for making the nullah navigable at all times?

(*g*) Will the Government be pleased to state whether any scheme for the canalisation of the Tolly's Nullah for boat traffic only is under consideration?

The Hon'ble MR. BUTLER replied:—

(*a*) "Yes."

(*b*) "It is not so, for at high tide rice-laden boats can have access to Chetla."

(*c*) "One Indian gentleman has written to Government seven letters complaining of the inconvenience and suggesting remedies."

(*d*) "Yes."

(*e*) "Not the whole."

(*f*) "With reference to this question, I would refer the Hon'ble Member to my reply to his questions concerning the Madaripur *Bhil* route.

(*g*) "No such scheme is under consideration."

THE PROVINCIAL SERVICE.

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

Will the Government be pleased to lay on the table a statement showing the appointments to the Provincial Executive Service made since the abolition of competitive examinations, giving the following particulars ?—

(1) (*a*) number of appointments in each Division filled up by nomination and the dates of such appointments,

(*b*) the nationality and religion of the candidates appointed,

(*c*) educational qualifications,

(2) and also, as regards the appointments made on the recommendation of the Calcutta University, the numbers, nationality and religion of the candidates, and their educational qualifications. In case of these last appointments, have University qualifications been always given the preference?

(3) and also to furnish the same particulars as regards the appointments made by the Government directly without the recommendations of the Divisional Commissioners or the University.

The Hon'ble MR. DUKE replied :—

"The particulars asked for in the three sections of the question are contained in the statements placed on the table.

"As regards appointments made on the recommendation of the University, the rule prescribes that the Syndicate shall be invited annually to nominate six graduates of high character whom they regard as the most distinguished students of the year. From amongst these, or graduates previously nominated under the same rule, the Lieutenant-Governor will, after inquiry, make three selections. The Lieutenant-Governor has no reason to believe that the Syndicate have not complied strictly with the provisions of the rule."
